Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
AL	Tommy Tuberville Katie Britt	Barry Moore (02)	Barbour County Health Association in the town of Bakerhill, Alabama	\$156,000	This Rural Development investment will be used to allow Barbour County Health Association purchase materials to revitalize and remodel a school building into a health care clinic with medical equipment and supplies in Bakerhill, Alabama. This facility will primarily service the Bakerhill population of 270 residences.	279	3,232,029
AL	Tommy Tuberville Katie Britt	Barry Moore (02)	Barbour County Hospital Association	\$200,500	This Rural Development investment will be used to allow Barbour County Hospital Association update and purchase equipment and supplies for a currently closed facility in Clio, Alabama. The clinic will be located in Barbour County and the primary service area will be the 1,399 residences of Clio.	1,399	3,232,030
AL	Tommy Tuberville Katie Britt	Barry Moore (02)	Crenshaw County Health Care Authority	\$1,000,000	This Rural Development investment will be used to recover health-related revenue lost while providing life-saving medical care during the COVID-19 pandemic. The Crenshaw County Health Care Authority operates the Crenshaw Community Hospital in Luverne, Alabama. The hospital offers a critical source of health care to the rural constituents of Crenshaw County.	13,083	3,262,251
AL	Tommy Tuberville Katie Britt	Jerry Carl (01)	Escambia County Alabama Community Hospitals Inc. dba Atmore Community Hospital	\$1,000,000	This Rural Development investment will be used to provide Escambia County Alabama Community Hospitals Inc. with a reimbursement of loss revenue due to issues arising from the COVID-19 pandemic. Funds will also be used to replace two Chill Water Air Handlers, and to repair and restore critical drinking water and wastewater infrastructure. The facility that is receiving the repairs will be located in Escambia County, Alabama and the primary service area is Escambia, Alabama, which has a population of 38,319.	38,319	3,232,032
AL	Tommy Tuberville Katie Britt	Barry Moore (02)	Mizell Memorial Hospital	\$954,000	This Rural Development investment will be used to significantly upgrade the heating, ventilation, and air conditioning (HVAC), and the water heater systems for Mizell Memorial Hospital Inc. located in Opp, Alabama. The upgraded HVAC systems utilize state-of-the-art components to minimize exposure to COVID-19, influenza viruses, and other viruses.	6,659	3,326,757
AL	Tommy Tuberville Katie Britt	Mike Rogers (03)	The Russell Hospital Corporation	\$573,000	This Rural Development investment will be used to reimburse The Russell Hospital Corporation which operates Russell Medical Center located in Alexander City, Alabama, for expended and anticipated purchases of equipment in response to COVID-19 and other infectious diseases. The total expenses amounted to \$4,351,736.00. The service area is Tallapoosa County and portions of the surrounding counties.	66,737	3,237,526
AR	John Boozman Tom Cotton	Steve Womack (03)	North Arkansas Regional Medical Center	\$145,000	This Rural Development investment will be used to assist with reimbursement costs of essential communications/telephone equipment. The equipment was urgently needed during the COVID 19 Pandemic. This directly impacted health care services by allowing for telehealth services and overall improved community health outcomes.	12,943	3,301,590
AZ	Kyrsten Sinema Mark Kelly	Raul Grijalva (07)	Bisbee Hospital Association	\$9,937,500	This Rural Development investment will be used to construct an addition to Copper Queen Community Hospital in Bisbee, Arizona. The 27,000 square foot addition will house operating rooms, pre- and post-operative areas, sterile processing area, and a new inpatient beds unit. Once completed, services will relocate from the current facility, and department areas will be repurposed for outpatient behavioral health care with tele-psych, specialty physician offices, expanded pharmacy, and an educational and training center for staff. The Bisbee Hospital Association is partnering with other members of the Southern Area Hospital Association in support of this project. The project will support the improved health outcomes of the southern Arizona community, facilitate access to local high caliber health care, and create sustainable economic development through quality job creation.	27,820	3,349,866
CA	Dianne Feinstein Alex Padilla	Doug LaMalfa (01)	Last Frontier HCD	\$1,000,000	This Rural Development investment will be used to purchase equipment to support rural health care services arising from the COVID-19 emergency for the Last Frontier health care District (LFHCD) in Alturas, Modoc County, California. LFHCD operates an eight bed acute care facility, two rural health clinics, a retail pharmacy and a 50-bed skilled nursing facility. In addition, LFHCD provides outpatient services at its two medical clinics, one at the Alturas location and the other in Canby. The district also has a dental clinic at the Canby location. The need for these services has greatly increased due to the conditions arising for the COVID-19 emergency and this project will help support rural patient services.	9,686	3,232,031

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
CA	Dianne Feinstein Alex Padilla	Kevin McCarthy (20)	Tule River Indian Health Center Inc.	\$1,000,000	This Rural Development investment will be used to purchase a modular building and an emergency generator to support rural health care services for people living on the Tule River Reservation. Funds will support testing and vaccination services for people living on the reservation. Funds will also help expand storage capacity, power freezers and refrigerators, and protect medical equipment during emergencies.	1,049	3,233,995 and 3,226,999
CO	Michael Bennet John Hickenlooper	Lauren Boebert (03)	Gunnison Country Food Pantry	\$588,448	This Rural Development investment will be used to help the Gunnison Country Food Pantry located in the Rocky Mountains of Colorado recover from the effects of the COVID-19 pandemic. During the pandemic, the pantry has seen an estimated 66 percent increase in demand for its services. Inflation and expiring special federal food assistance funds mean the pantry anticipates this demand will continue. This project will provide funds to help cover expenses such as insurance, facility expenses and direct project costs for three years. The pantry provides critical food supplies, and this project will ensure it is able to continue to help the 5,854 rural residents within its service area recover from the COVID-19 pandemic.	5,854	3,296,267
CO	Michael Bennet John Hickenlooper	Lauren Boebert (03)	Gunnison County	\$210,813	This Rural Development investment will be used to furnish equipment for the new Emergency Medical Services (EMS) building in Gunnison County in southwestern Colorado. The county is presently constructing an EMS facility to better serve its 5,089 rural residents that a local health care provider will operate. The project will also include necessary equipment for the completed facility such as laptop computers, radios, medical storage and dispensing equipment. This project will ensure Gunnison County has an updated facility to provide essential medical services and build resilience against future pandemics.	5,089	3,237,528
DE	Tom Carper Chris Coons	Lisa Blunt Rochester (At Large)	Beebe Medical Foundation	\$850,000	This Rural Development investment will be used to support the reimbursement of health care-related revenue loss associated with the COVID-19 pandemic. Beebe Medical Center needed to divert staff and other resources to the critical need to establish testing, vaccination services, and treatment services to fight COVID-19. The community Beebe Medical Center serves will benefit from this investment mostly by allowing this medical center to continue to service its patients who have been economically and physically effected by COVID-19.	197,145	3,256,818
DE	Tom Carper Chris Coons	Lisa Blunt Rochester (At Large)	Marydel Volunteer Fire Company Inc.	\$202,840	This Rural Development investment will be used to purchase an ambulance and emergency vehicle equipment for the Marydel Volunteer Fire Company (VFC). The need to purchase a newer ambulance with updated equipment has become a concern during the COVID-19 pandemic. Over the course of the COVID-19 pandemic, Marydel VFC experienced an increase of 27 percent in call volume. Emergency response incidents increased from 655 in 2021 to 900 in 2022. Marydel VFC will replace a nine year old ambulance in their fleet that has surpassed its life expectancy. The area to be served is rural and serves both Maryland and Delaware.	9,321	3,350,408
DE	Tom Carper Chris Coons	Lisa Blunt Rochester (At Large)	Milton Community Food Pantry Inc.	\$61,200	This Rural Development investment will be used to purchase a building to be used as a food storage and distribution facility, and to upgrade its refrigeration and walk-in freezer. Funds will also be used to purchase bulk food over the next three years to ensure food is readily available. The community served includes senior citizens, veterans, people with disabilities, and families in need. With a dedicated building, Milton Community Food Pantry Inc. (MCFP) will be able to operate more effortlessly with increased storage and space for packing food. The facility will be operated in a drive through model increasing safety, with minimal exposure and contact for clients and volunteers while still getting food to them. The purchase of the walk-in freezer will allow MCFP to "rescue" more food by having a larger space for storage. The facility is located in unincorporated area of Milton.	2,335	3,209,515
DE	Tom Carper Chris Coons	Lisa Blunt Rochester (At Large)	The Springboard Collaborative Inc.	\$722,300	This Rural Development investment will be used to purchase, prepare, and distribute nutritious food each day to the 40 residents of Pallet Village in rural Georgetown, Delaware, over the next three years. The Springboard Collaborative Inc. (TSC Inc.) - Pallet Shelter Village seeks to develop a meal program to provide the homeless community with access to nutritional foods. TSC Inc. plans to decrease acute and chronic illness by teaching good eating habits, growing fresh foods, and providing skills for healthy food preparation.	6,422	3,338,080

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
FL	Marco Rubio Rick Scott	Neal Dunn (02)	America's Second Harvest of the Big Bend Inc.	\$637,550	This Rural Development investment will be used to increase food distribution in six Florida counties: Taylor, Calhoun, Jackson, Gadsden, Madison and Franklin. These communities were impacted by an increase in food insecurity from the COVID-19 pandemic. Funding will be used to purchase wholesale shelf-stable food for distribution and related equipment in order to provide the needed services to its citizens.	164,103	3,202,007
FL	Marco Rubio Rick Scott	Neal Dunn (02)	Calhoun Liberty Hospital Association Inc.	\$253,900	This Rural Development investment will be used to fund the purchase of medical equipment necessary to improve efficiency and increase capacity, while continuing to deliver the highest quality medical care to serve the residents of Florida counties, Calhoun and Liberty. The increased capacity is paramount during an emergency situation and will help bring equitable access to life-saving treatment without burdening families by having to travel far from home to obtain necessary medical services.	2,514	3,313,180
FL	Marco Rubio Rick Scott	Matt Gaetz (01)	Feeding the Gulf Coast	\$225,000	This Rural Development investment will be used to expand access to nutrition assistance through food banks and food distribution facilities in Jay, Florida. Feeding the Gulf Coast Inc. food deliveries has increased 25 percent from pre-pandemic years in this area.	399	3,165,554
FL	Marco Rubio Rick Scott	Neal Dunn (02)	Franklin County Board Of County Commissioners	\$513,700	This Rural Development investment will be used to purchase two paramedic trucks for the George E. Weems Memorial Hospital, a rural critical access hospital serving Franklin County, Florida. The paramedic trucks will expand the paramedicine program to serve patients in the rural communities who lack adequate transportation to receive necessary health care and vaccinations. The project will improve the overall quality of health of the residents in the service area.	2,778	3,238,830
FL	Marco Rubio Rick Scott	Neal Dunn (02)	Pancare Of Florida Inc.	\$1,000,000	This Rural Development investment will be used to construct a primary care clinic that is part of a multi-phase regional health care center. The new facility will make services available to all residents within Northwest Florida and will enable Pancare Health to focus on health promotion, COVID-19 related health care, disease prevention, and health maintenance. The new medical office building will also assist with reducing unnecessary emergency room visits and allow Pancare Health to reach rural communities that are underserved and improve the overall health of the residents of those communities.	26,362	3,187,386
FL	Marco Rubio Rick Scott	Maxwell Frost (10)	Second Harvest Food Bank of Central Florida Inc.	\$150,564	This Rural Development investment will be used to expand access to nutrition assistance through food banks and food distribution facilities in the town of Pierson, Florida. Second Harvest Food Bank of Central Florida will provide hunger relief through the distribution of food to at least two local partner agencies serving low-income resident families in the rural community. Due to the sharp increase in costs from COVID-19 related responses, the outcome will provide residents with affordable and healthy nutritional food resources.	1,736	3,176,218
GA	Jon Ossoff Raphael Warnock	Rick Allen (12)	Coffee Regional Medical Center	\$328,700	This Rural Development investment will be used to purchase a chiller that will provide air conditioning for the main building, which houses all surgical procedures, intensive care unit, emergency department and laboratory as well as the patient rooms. In clinical and hospital settings temperature control is critical for a sterile environment but also for ensuring safety of surgical areas, patients, medicines and chemicals. The grant funds will also be used to purchase a new boiler. The boiler allows the hospital to steam surgical equipment that is essential to medical procedures. The grant will allow the hospital to upgrade equipment to better serve the health care demand in rural Coffee County, Georgia.	42,356	3,220,864
GA	Jon Ossoff Raphael Warnock	Rick Allen (12)	Georgia Health Information Network Inc.	\$1,000,000	This Rural Development investment will be used to provide The Georgia Health Information Network Inc. to expand its telehealth network to add a new hub site and three end user sites located in rural areas. The new hub and end user sites are located in Jefferson, Emanuel, Wilkes, and Washington counties.	71,308	3,334,983
GA	Jon Ossoff Raphael Warnock	Austin Scott (08)	Jeffersonville City & Twiggs County Development	\$823,900	This Rural Development investment will be used to construct a permanent Health Education Center and Clinic in Twiggs County. The Health Education Center will focus on chronic diseases such as diabetes, heart disease and COVID-19 education. The clinic will allow health services to be performed in Twiggs County and improve health and quality of life for rural Jeffersonville, Georgia.	9,023	3,296,266

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
GA	Jon Ossoff Raphael Warnock	Sanford Bishop (02)	The Corporation of Mercer University	\$224,500	This Rural Development investment will be used to help The Corporation of Mercer University acquire startup equipment costs for a primary care facility in Taylor County. The funds will allow the primary care facility to help with the COVID-19 pandemic, any future pandemic events and health care needs for the community. Currently there is not a primary care facility in Reynolds, Georgia. The new facility will allow the physicians to provide preventive care to the residents of Taylor County and improve health outcomes. The facility will also increase access to quality health care and access to telehealth to Taylor County.	8,906	3,212,397
IA	Chuck Grassley Joni Ernst	Zach Nunn (03)	Decatur County Hospital	\$274,600	This Rural Development investment will be used to help Decatur County Hospital in Leon recover from the economic impact of COVID-19. This project will replace lost revenues caused by pandemic-related challenges. Once completed, the project will provide the hospital with financial resources to better serve the residents of this rural community and the surrounding rural areas.	8,457	3,237,524
IA	Chuck Grassley Joni Ernst	Ashley Hinson (02)	Floyd County Memorial Hospital dba Floyd County Medical Center	\$1,000,000	This Rural Development investment will be used to help Floyd County Medical Center in Charles City purchase and install heating, ventilation, and air conditioning (HVAC) systems. This project will provide energy-efficient air handling units to enhance air quality and infection control inside the hospital. Once in operation, the new HVAC systems will help eliminate airborne pathogens, including COVID-19 threats, increase the comfort of patients, staff, and visitors, and promote the health of residents in this rural community and the surrounding rural areas.	7,652	3,349,856
IA	Chuck Grassley Joni Ernst	Zach Nunn (03)	Food Bank of Iowa	\$1,000,000	This Rural Development investment will be used to help the Food Bank of Iowa recover from the economic impact of COVID-19. This project will reimburse the food bank for operating expenses associated with pandemic-related food distribution which took place on or after March 13, 2020, through September 30, 2022. The food bank, a non-profit organization based in Polk County, partners with other entities to distribute food to hungry Iowans. Once completed, the project will help fight food insecurity in rural areas across the state.	796,934	3,245,153
IA	Chuck Grassley Joni Ernst	Zach Nunn (03)	Greene County Medical Center	\$1,000,000	This Rural Development investment will be used to help Greene County Medical Center recover from the economic impact of COVID-19. This project will replace lost revenues caused by pandemic-related challenges. Once completed, the project will provide the hospital in Jefferson with financial resources to better serve the residents of this rural community and the surrounding areas.	9,336	3,333,232
IA	Chuck Grassley Joni Ernst	Randy Feenstra (04)	Humboldt County Memorial Hospital	\$249,900	This Rural Development investment will be used to help Humboldt County Memorial Hospital in Humboldt construct a new outpatient therapy and mental health clinic. This project will expand health care services, including services for mental health needs. Once completed, the project will implement preventive pandemic services and promote the health of residents of this rural county and surrounding rural area	4,690	3,268,445
IA	Chuck Grassley Joni Ernst	Mariannette Miller-Meeks (01)	Knoxville Community Hospital	\$699,900	This Rural Development investment will be used to help Knoxville Community Hospital recover from the economic impact of the COVID-19 pandemic. This project will replace lost revenues caused by pandemic-related challenges and mitigate the expenses of staffing and testing. Once completed, the project will provide the hospital with financial resources to better serve the residents of this rural community and the surrounding rural areas.	7,313	3,225,920
IA	Chuck Grassley Joni Ernst	Mariannette Miller-Meeks (01)	Lee County	\$974,000	This Rural Development investment will be used to help Lee County construct a public health building in Fort Madison, Iowa. This project will provide a public health facility with a main office, workspace for staff, ambulance bays, as well as space for testing for COVID-19 and future pandemics. Once completed, the project will better serve the health care needs of residents of this Lee County community and the surrounding rural area.	10,049	3,237,519
IA	Chuck Grassley Joni Ernst	Randy Feenstra (04)	Sioux Center Health	\$125,200	This Rural Development investment will be used to help Sioux Center Health in Sioux County construct an infusion center. This project will build a separate entrance to the hospital for infusion foot traffic and will provide dedicated treatment bays to accommodate all types of intravenous treatments including those for chemotherapy, inflammatory bowel diseases, and infections. Once completed, this hospital expansion in Sioux County will improve medical services and promote the health of Sioux Center residents and residents of the surrounding rural areas.	7,048	3,243,239

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
IA	Chuck Grassley Joni Ernst	Mariannette Miller-Meeks (01)	Van Buren County Hospital	\$419,700	This Rural Development investment will be used to help Van Buren County Hospital in Keosauqua recover from the economic impact of the COVID-19 pandemic. This project will replace lost revenues caused by pandemic-related challenges. Once completed, the project will provide the hospital with financial resources to better serve the residents of this rural community and the surrounding rural areas.	1,005	3,236,202
IA	Chuck Grassley Joni Ernst	Ashley Hinson (02)	Virginia Gay Hospital	\$466,600	This Rural Development investment will be used to help Virginia Gay Hospital in Vinton recover from the economic impact of the COVID-19 pandemic. This project will replace lost revenues caused by pandemic-related challenges. Once completed, the project will provide the hospital with financial resources to better serve the residents of this rural Benton County community and the surrounding rural areas.	5,257	3,230,989
IL	Dick Durbin Tammy Duckworth	Mike Bost (12)	Clay County	\$1,000,000	This Rural Development investment will be used to renovate Clay County Hospital to develop a larger lab and convert the clinic into an acute care clinic. The expansion of the lab will support equipment needed to continue offering COVID-19 testing to the community. These support areas include mitigating risk of disease transmission, a collaborative care model, and continued access to COVID-19 testing and vaccinations.	13,664	3,233,994
IL	Dick Durbin Tammy Duckworth	Mike Bost (12)	ComWell	\$175,375	This Rural Development investment will be used to construct 1,350 square feet of office space, and conduct renovations of existing spaces to expand capacity for providing mental health services.	35,683	3,199,570
IL	Dick Durbin Tammy Duckworth	Mike Bost (12)	Hamilton Memorial Hospital	\$895,900	This Rural Development investment will be used to purchase an electronic medical records system. The system will enable the Hospital District to have a one-stop clinical documentation system that will provide communication and collaboration between clinics, the Hospital District and larger hospitals capable of providing higher level of care transfers and specialty care. The surge of patients during the COVID-19 pandemic and increase in post COVID-19 patients with long-term health conditions identified the need for the electronic medical records system to ensure high-quality, cost-effective care.	13,697	3,157,235
IL	Dick Durbin Tammy Duckworth	Eric Sorensen (17) Darin LaHood (16)	Hammond Henry District Hospital	\$154,500	This Rural Development investment will be used to renovate a laboratory for Hammond Henry District Hospital. Project plans include renovation of their laboratory, a new restroom, drawing room, and heating, ventilation, and air conditioning. This project broadens access to COVID-19 testing, vaccinations, and access to health care in the rural communities of Henry County, Illinois.	50,486	3,237,520
IL	Dick Durbin Tammy Duckworth	Eric Sorensen (17)	Jamieson Community Center	\$137,200	This Rural Development investment will be used to purchase equipment, supplies, and a truck for the Jamieson Community Center. The community center will use this equipment for its Senior Nutrition Center, Recharge Teen Center and its two food pantries. This project will increase access to food in rural communities.	41,472	3,168,472
IL	Dick Durbin Tammy Duckworth	Mary Miller (15)	Jersey Community Hospital District	\$1,000,000	This Rural Development investment will be used to purchase an ambulance, ultrasound equipment and a touchless door entry system. The project also includes necessary repairs to the facility's roof and parking lot. It will also include an addition to the ambulatory surgery department and medical office space. This project will enable the Hospital District to support immediate health care needs, allow safe social distancing, prepare for future pandemics and increase access to quality health care.	41,960	3,201,617
IL	Dick Durbin Tammy Duckworth	Darin LaHood (16)	Northern Illinois Cancer Treatment Center	\$316,361	This Rural Development investment will be used to replace lost revenue due to COVID-19. Patients were unable to seek treatment due to the risk of virus. This project ensures the center can continue providing quality care to the community and improve access to rural health care.	40,369	3,190,688
IL	Dick Durbin Tammy Duckworth	Mike Bost (12)	Southern Illinois Hospital Services	\$8,709,909	This Rural Development investment will be used to build an in-patient medical psychiatric unit to expand access to mental health services. The hospital will work with the Egyptian Health Department, the Southern Illinois University School of Medicine, and the Southeastern Regional Planning and Development Commission to address the mental health needs in the region.	53,957	3,237,521

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
IL	Dick Durbin Tammy Duckworth	Mary Miller (15)	St. Francis Hospital	\$27,329	This Rural Development investment will be used to purchase equipment for St. Francis Hospital's food pantry. The hospital will purchase a freezer and truck to ensure adequate space for perishable food donations and timely deliveries for residents of Montgomery and Macoupin counties. This project will also help to address local food insecurity and nutrition needs of the area.	77,869	3,172,017
IL	Dick Durbin Tammy Duckworth	Mary Miller (15)	Taylorville Memorial Hospital	\$573,900	This Rural Development investment will be used to purchase and install electronic medical record systems for Taylorville Memorial Hospital. Affiliates of the hospital will also utilize this technology to ensure the standardization of records. This project will facilitate transition and coordination of care, improve revenue cycle processes, and track COVID-19 testing and vaccinations, ultimately resulting in better patient care as the systems are streamlined.	37,056	3,222,635
IL	Dick Durbin Tammy Duckworth	Mary Miller (15)	The Passavant Memorial Area Hospital Association	\$1,000,000	This Rural Development investment will be used to purchase and install an electronic medical record systems for Passavant Memorial Hospital. All hospitals and affiliates within the network will utilize this same technology to ensure the standardization of records and data sharing, and track COVID-19 testing and vaccinations. This streamlined system will improve health care to rural communities of Illinois.	75,675	3,222,634
IN	Todd Young Mike Braun	Rudy Yakym (02)	City of Peru	\$129,500	This Rural Development investment will be used to purchase an ambulance for the City of Peru. This purchase will provide residents with high-quality care in all medical situations, including COVID-19 and medical surges, and be able to provide dependable transportation to health care providers. The city of Peru is a rural community with a population of 11,417. This investment will serve this rural community located in Miami County, Indiana.	11,417	3,213,399
IN	Todd Young Mike Braun	Erin Houchin (09)	LifeSpring Inc.	\$1,000,000	This Rural Development investment will be used to renovate a building in Charlestown, Indiana. LifeSpring Inc. will utilize this property as a medical clinic to provide primary care, vaccine distribution, testing, and behavioral health care services to the residents of Charlestown. The COVID-19 pandemic highlighted the lack of services in this area.	7,585	3,194,970
IN	Todd Young Mike Braun	Larry Bucshon (08)	Perry County Memorial Hospital	\$58,400	This Rural Development investment will be used to renovate a portion of the Perry County Memorial Hospital's clinic in Tell City, Indiana. The renovations create a more functional and improved clinic and provide a separate entrance for potential positive COVID-19 patients. A new canopy attached to the clinic assists with providing car care for testing and vaccinations. The renovation will include three new exam rooms, one designated as a negative pressure room for improved safe care for COVID-19 patients. In addition, the construction will include an installation of an Americans with Disabilities Act compliant and accessible restroom, renovated lab space, and dedicated nurses station. This project will allow the safe separation of suspected COVID 19-positive patients from other patients receiving routine treatment. □	7,552	3,236,200
KS	Jerry Moran Roger Marshall	Jake LaTurner (02)	Independence Community College	\$30,100	This Rural Development investment will be used to establish an on campus health care center at Independence Community College. The center will partner with Labette Health to staff and provide medical services to students, staff, and faculty, both on site and through telehealth services.	35,471	3,250,277
KS	Jerry Moran Roger Marshall	Jake LaTurner (02)	Labette County Medical Center	\$759,600	This Rural Development investment will be used to purchase upgrades to the electronic health records system, data sharing and other connected health care information systems at the Labette County Medical Center. Once completed, the facility will be prepared for future pandemics and enhance the quality of life for customers for years to come.	73,590	3,248,773
LA	Bill Cassidy John Kennedy	Mike Johnson (04)	Council for the Advancement of Social Services	\$956,250	This Rural Development investment will be used to purchase remote patient monitoring medical devices, telehealth software licenses and information services to integrate medical records and population health analytics into their remote care offerings. Awarded funds will be used to broaden rural residents' access to quality health care services, improve patient outcomes and enable the clinics to mitigate negative impacts related to the current and future pandemic through the delivery of remote care.	9,189	3,349,862

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
MA	Elizabeth Warren Ed Markey	William Keating (09)	Cape Cod Village Inc.	\$71,200	This Rural Development investment will be used to reimburse health care related revenue losses suffered because of the COVID-19 Pandemic. This funding will allow Cape Cod Village Inc. to meet the immediate health care needs of patients, help prepare for a future pandemic event, and increase access to quality health care services and improve community health outcomes. Cape Cod Village is a 16-unit residential community for individuals with severe autism.	16	3,187,383
MA	Elizabeth Warren Ed Markey	Jim McGovern (02)	Community Action Pioneer Valley Inc.	\$1,000,000	This Rural Development investment will be used to fund equipment for the Community Action Center for Self-Reliance Food Pantry. Due to the COVID-19 Pandemic, the applicant's goal is to reduce barriers to access for food and assistance for clients (such as senior citizens and persons with disabilities). The applicant has purchased a facility, which is adjacent to downtown Greenfield and accessible by public transportation. The Center for Self Reliance will be one of several client-facing services offering ground-level "one-stop" experiences as well as optimal Americans with Disabilities Act compliant access. Funding would ensure a suitable location for food pantry operations, in which they will continue to provide free, nutritious food.	17,456	3,217,644
MA	Elizabeth Warren Ed Markey	Richard Neal (01)	Town of Bernardston	\$74,411	This Rural Development investment will be used to purchase nine Emergency Medical Services Radio Repeaters for the fire and law enforcement first responder personnel. These repeaters will allow the town to have efficient communications for medical emergencies as it is located in a small rural area with a population of 2,129, there are many "dead zones" that interrupt medical communications. The town will provide a match of funds through local funds voted on by the Town Select Board. With these repeaters first responder personnel will have efficient communication with the regional dispatch center for crucial, time sensitive medical emergency calls.	2,129	3,230,990
MA	Elizabeth Warren Ed Markey	Jim McGovern (02)	Town of Athol	\$835,342	This Rural Development investment will be used to purchase two ambulances and a fire water pump truck. The evolving and increasing medical demands placed upon Athol's municipal fire and ambulance service has resulted in a growing need to deploy fire apparatus as first-response vehicles. The fire truck provides a necessary supplement by carrying medical equipment, supplies and personnel to incidents when the ambulances are out on calls or when a unit is offline due to mechanical issues. Funds are being used in correlation with the COVID-19 pandemic and to support immediate health care needs for the 11,584 residents and surrounding towns.	11,584	3,248,774
MA	Elizabeth Warren Ed Markey	Richard Neal (01)	Town of Charlemont	\$146,937	This Rural Development investment will be used to fund an ambulance replacement, as well as equipment to outfit the vehicle. The town of Charlemont, Massachusetts provides emergency response via a Basic Life Service Ambulance. The ambulance serves as mutual aid to the towns of Shelburne, Heath, and Colrain. The ambulance is staffed via an on-call system. Charlemont is responsible for more than 54 miles of roadway. Funding will allow for a new ambulance and equipment to be purchased in order to sustain public health and safety to the community of Charlemont and surrounding rural towns.	1,226	3,246,570
MA	Elizabeth Warren Ed Markey	Jim McGovern (02)	Town of Northfield	\$48,215	This Rural Development investment will be used to purchase a new 2023 Class I Type I Horton Ambulance for the Town of Northfield, Massachusetts. The Town is in need of a replacement ambulance, as one out of its two vehicles is severely aged. This purchase will benefit the town of Northfield, as well as the communities of Bernardston, Gill and Erving. Ambulance purchase is anticipated for June 2023.	3,032	3,313,179
MA	Elizabeth Warren Ed Markey	Richard Neal (01)	Town of Southbridge	\$913,399	This Rural Development investment will be used to allow the town of Southbridge, Massachusetts to purchase new equipment for the town's Emergency Operations Center. The town is located in a rural area, with a population, as of the 2010 Census, 16,719 residents. The town will provide a match of funds utilizing local funds, authorized by the Town Select Board. With the award, the town will be able to better respond to medical emergencies in Southbridge and surrounding towns.	16,719	3,349,248

Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
MA	Elizabeth Warren Ed Markey	Richard Neal (01)	Volunteers in Medicine - Berkshire	\$103,075	This Rural Development Investment will be used to fund the Volunteers in Medicine-Berkshire Inc. clinic to purchase equipment, furniture and other furnishings to update a vital rural clinic that is experiencing patient overcapacity. The clinic is located in a rural area, with a population, as of the 2010 Census, 7,104 residents. The clinic will provide a match of funds utilizing fundraising dollars. With the award, the clinic will be able to provide medical services, including COVID-19 testing, to uninsured and underinsured adults in the rural Berkshire region.	7,104	3,349,251
MD	Ben Cardin Chris Van Hollen	David Trone (06)	Brook Lane Health Services Inc.	\$661,500	This Rural Development investment will be used to purchase a Cerner electronic health record (EHR) software system for Brook Lane Health Services. Due to the COVID-19 pandemic, Brook Lane started introducing more telehealth systems for patient care. The new system will integrate both the clinician and patient experience into one efficient database, portal, and platform.	39,546	3,208,843
MD	Ben Cardin Chris Van Hollen	Andy Harris (01)	Eastern Shore Entrepreneurship Center	\$538,500	This Rural Development investment will be used to increase food distribution efforts on the Maryland Eastern Shore by partnering with Chesapeake Culinary Center for the establishment of Eastern Shore Delmarva Farm to Freezer project, a produce processing and aggregation facility. The facility will occupy 5,000 square feet, with half the space used for processing and individual quick frozen equipment and the other half set aside for refrigerated, freezer, and dry storage and staging for shipping and receiving. The community served by this project includes several counties on the Eastern Shore - Caroline, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico, and Worcester - where the estimated poverty rate is over 13 percent and access to nutritious food is limited.	33,066	3,350,412
MD	Ben Cardin Chris Van Hollen	David Trone (06)	Hancock Rescue Squad Inc.	\$233,800	This Rural Development investment will be used to purchase an ambulance that will replace the second ambulance in their fleet of emergency vehicles for Hancock Rescue Squad Inc. Hancock Rescue Squad Inc. recognized the urgent need to update their emergency vehicles due to the medical surge of the COVID-19 pandemic. This ambulance will include UV light system for disinfection; heating, ventilation, and air condition (HVAC); air disinfection, and power-loading system for patients. Hancock Rescue Squad Inc. is an eligible nonprofit corporation located in Hancock, Maryland.	3,622	3,312,060
MD	Ben Cardin Chris Van Hollen	David Trone (06)	Interfaith Service Coalition of Hancock	\$198,000	This Rural Development investment will be used to support Interfaith Service Coalition (ISC) Inc.'s food distribution program in Hancock, Maryland. ISC is the only agency in Western Washington County offering this type of service, with the next closest facility being 30 miles away. Funding will be used to purchase bulk food, distribution supplies and equipment. It will also allow ISC to bring on essential staff to help run the distribution program after COVID-19 restrictions limited staffing.	1,545	3,172,112
MD	Ben Cardin Chris Van Hollen	Steny Hoyer (05)	Maryland Foundation Inc., Lifestyle of	\$275,200	This Rural Development investment will be used to expand Lifestyle of Maryland Foundation Inc. (LMF Inc.) food bank and food distribution operations, by providing direct food assistance and food access programs to low-income individuals and families and elderly/disabled individuals. LMF Inc. plans to purchase two refrigerated trucks to assist with delivery of food, as well as bring on an additional staff person to operate the warehouse. With the rise of COVID-19 and its continued presence, homelessness and food scarcity are very prevalent in the Lexington Park area. This investment will allow LMF Inc. to distribute healthier, fresher food to their community on a continual basis.	11,626	3,285,676
MD	Ben Cardin Chris Van Hollen	Andy Harris (01)	Pocomoke City	\$271,000	This Rural Development investment will be used to purchase an ambulance for Pocomoke City, Maryland. This is the second ambulance funding request from Pocomoke City under the Emergency Rural Health Care grant program. This new ambulance will replace a vehicle from 2016 that does not meet the safety standards for preventing the spread of COVID-19 to patients and emergency medical staff personnel. Pocomoke City has recognized the urgent need to update its emergency vehicles due to the medical surge of the COVID-19 pandemic.	4,184	3,320,010

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
MD	Ben Cardin Chris Van Hollen	Andy Harris (01)	Rock Hall Volunteer Fire Company Inc.	\$342,500	This Rural Development investment will be used to purchase an ambulance and equipment for Rock Hall Volunteer Fire Company (VFC). This new ambulance will replace a sixteen-year-old ambulance that is obsolete, requires too many repairs, and does not meet the modern safety standards required for safety against spreading COVID-19. Rock Hall VFC is the only access to emergency services in the region, and there are no practicing physicians or nurses in the rural town. Many patients need to be transported to larger cities in Maryland, like Chestertown, Annapolis, or Baltimore. This created a capacity issue during the COVID-19 pandemic with the rise in emergency calls.	1,243	3,279,921
MD	Ben Cardin Chris Van Hollen	Andy Harris (01)	The Galena Volunteer Fire Company	\$187,000	This Rural Development investment will be used to purchase an ambulance and equipment for the Galena Volunteer Fire Company (VFC) fleet of emergency vehicles. The need to purchase a newer ambulance with updated equipment has become a noticeable concern for Galena VFC as the COVID-19 pandemic progressed throughout the last three years. Galena VFC is seeking to replace the third ambulance in its fleet. This ambulance is 20 years old and experiencing reliability issues with constant costly repairs. The vehicle has also accumulated more than 110,000 miles and does not meet current COVID-19 safety standards for ambulances. Galena VFC serves the municipal boundaries of six rural town in Maryland: Galena, Kennedyville, Millington, Betterton, Cecilton, and Georgetown.	2,495	3,338,081
ME	Susan Collins Angus King	Jared Golden (02)	Fish River Rural Health	\$69,800	This Rural Development investment will be used to obtain funding for Fish River Rural Health (FRRH), a non-profit, federally qualified community health center (FQHC), successfully operating for over 30 years. FRRH provides primary care, dental, optometry, chiropractic care, telehealth medicine and food distribution services. They serve the northern most towns in Aroostook County in the St. John Valley area. The COVID-19 pandemic exacerbated the inequity for rural residents and was compounded by the Canadian border closure. Most border community residents have historically crossed the U.S. and Canadian border for dental and optometry services. Since March of 2020, they have seen an increase of 100 rural residents being seen, per month, at this facility. The primary purpose of the grant is to support FRRH in their continued efforts to diagnose and manage COVID-19 and other future pandemics throughout the Northern Aroostook County communities. This also assists in supporting the surge of new patients since the pandemic. This will be achieved by purchasing the necessary equipment for dental services, along with technology and food distribution services as they relate to COVID-19.	15,069	3,349,857
ME	Susan Collins Angus King	Jared Golden (02)	Penobscot Community Health Center	\$450,900	This Rural Development investment will be used to renovate the first and second floor of a more than 35,000-square-foot recently acquired building in Belfast, Maine. The first floor will house integrated adult and pediatric primary care services (mental health, case management, and medical); walk-in care; and a recovery program for opioid-use disorder. The second floor will accommodate dental services, community rooms, and administrative offices. There are not enough primary and mental health-care providers in this region. The current leased space is quite small and severely limits medical services. During the COVID-19 pandemic, a camp trailer was purchased just to meet demand for tests and vaccinations. Belfast's Seaport Community Health Center opened nearly 40 years ago, becoming part of Penobscot Community Health Center in 2013. It currently has 60 employees who serve approximately 8,000 patients annually. In the heart of Waldo County, one of Maine's poorer counties, the Belfast community suffers from increasing rates of mental illness and substance-use disorder along with poor rates of primary care use.	12,331	3,157,236
MI	Debbie Stabenow Gary Peters	Elissa Slotkin (07)	City of Owosso	\$152,500	This Rural Development investments will be used to purchase an ambulance and three heart monitors/defibrillators. The ambulance purchase will replace an existing ambulance in the City's fleet. Its useful lifespan was shortened by heavy use during the COVID-19 global pandemic. The heart monitor/defibrillators were also heavily utilized during the COVID-19 pandemic. The existing units are now beyond their useful lifespan. Replacement of these equipment pieces will support the City's effort to prepare for future pandemics or medical surge events.	15,194	3,342,578 and 3,342,577

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
MI	Debbie Stabenow Gary Peters	Tim Walberg (05)	Covered Bridge Healthcare of St. Joseph County Inc.	\$1,000,000	This Rural Development investment will be used to purchase equipment that will improve telehealth services among other future pandemic and medical surge preparation projects.	28,425	3,348,001
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	Crawford County	\$249,100	This Rural Development investment will be used to improve Crawford County's (through the Commission on Aging) senior center. The need for the project was identified through the COVID-19 global pandemic. The resilience built through the successful completion of this project will support increased community health through social distancing within the senior center facility, and continuation of in-home food distribution.	14,074	3,345,931
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	Gogebic-Ontonagon Community Action Agency	\$35,000	This Rural Development investment will be used to purchase a vehicle to transport meals to homebound individuals. The need for this project was identified as a result of the COVID-19 global pandemic and will increase the region's resilience to maintain services for future public health emergencies.	23,207	3,345,932
MI	Debbie Stabenow Gary Peters	Lisa McClain (09)	Harbor Beach Community Hospital	\$1,000,000	This Rural Development investment will be used to purchase an X-ray machine, a portable X-ray machine to limit movement of highly infectious patients throughout the facility, and a nuclear medicine machine. The Harbor Beach Community Hospital Inc. will also upgrade heating, ventilation, and air conditioning components, and food storage equipment to increase surge capacity for future public health events.	2,303	3,325,614
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	Rogers City Area Sr	\$100,500	This Rural Development investment will be used to replace a roof that has collapsed. The facility is a long-term gathering place for senior citizens seeking to maintain healthy lifestyles and camaraderie. The facility continued to operate nutrition programs through the COVID-19 global pandemic and served as an emergency shelter for the distribution of COVID-19 vaccines and socially distanced behavioral health services.	2,827	3,348,000
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	Roscommon County	\$69,100	This Rural Development investment will be utilized to purchase communications equipment for the Roscommon County's Central Dispatch Department. The current equipment has reached the end of its useful lifespan and requires replacement to increase preparedness for future pandemic or medical surge events.	24,449	3,349,855
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	Schoolcraft Memorial Hospital	\$349,685	This Rural Development investment will be used to purchase equipment for Schoolcraft Memorial Hospital, including a general X-ray machine and fluoroscopy and portable-imaging equipment. These resources had significant overuse during the COVID-19 global pandemic.	8,485	3,206,113
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	Tri-Township Ambulance	\$92,700	This Rural Development investment will be used to purchase an ambulance. The ambulance was purchased in November, 2022 for the purpose of safely transporting patients with infectious diseases (e.g., COVID-19). Replacement of the vehicle will support the organization's effort to prepare for future pandemics or medical surge events.	3,386	3,341,769
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	United Way of Northwest Michigan	\$1,000,000	This Rural Development investment will be used to purchase equipment and renovate the interior of an existing office building to serve as a dental clinic. The need for this facility was identified as a result of the COVID-19 global pandemic. Rural communities saw undue impacts to small, often family owned dental practices due to the workforce choosing to retire rather than return to work after the pandemic. This project is a collaboration between the dental training programs at the University of Michigan and the United Way of Northwest Michigan. It will focus on serving children and veterans who need dental treatment, and have been unable to obtain it due to behavioral and other challenging conditions (PTSD, Autism, etc.).	113,422	3,349,858 - 3,325,616 - 3,325,615

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
MI	Debbie Stabenow Gary Peters	Jack Bergman (01)	United We Smile	\$455,000	This Rural Development investment will be used to purchase equipment and renovate interior (lower level) of an existing office building to serve as a community center associated with a new dental clinic (main level). The need for this facility was identified as a result of the COVID-19 global pandemic. The existing facility was chosen based on the availability of space that could provide "wrap around services" to families and individuals while receiving dental treatment. This investment will allow the community center to be fully built out and equipped to include areas for group therapy sessions, a food pantry, and shared office space for staff from the Department of Human Services, Department of Veteran's Affairs, and the local Intermediate School Districts. By the end of this project children and veterans who need behavior guidance during dental treatments and experience comorbidities (PTSD, Autism, etc.) will be able to visit one location and gain access to a variety of community health services in the same trip.	113,422	3,355,256 and 3,355,255
MN	Amy Klobuchar Tina Smith	Michelle Fischbach (07)	Appleton Area Health	\$714,700	This Rural Development investment will be used to modernize telemedicine and telehealth capabilities and replace equipment at a 15-bed, critical-access hospital located in Appleton, Minnesota. This project will replace the electronic health record system which no longer has technical support. Appleton Area Health serves Appleton residents and rural populations of Swift and Lac Qui Parle counties. Appleton, a target area for rural poverty, is considered a distressed area.	1,412	3,172,110
MN	Amy Klobuchar Tina Smith	Michelle Fischbach (07)	Dawson Area Hospital	\$1,000,000	This Rural Development investment will be used to purchase software for Dawson Area Hospital, also known as Johnson Memorial Health Services, in Dawson, Minnesota. The project will replace an obsolete, unserviceable electronic health records (EHR) system. A modernized system is vital to high-quality care, improved medical reporting, and COVID-related patient services. This EHR software, compatible with current platforms, will also increase data-sharing capacity resulting from COVID-19 treatments and preparedness. Dawson Area Hospital is a critical-access hospital which serves approximately 1,540 city residents, plus those in surrounding Riverside, Baxter, Cerro Gordo, Lac Qui Parle, Hamlin, Providence, and Maxwell townships of Lac Qui Parle County.	1,540	3,192,389
MN	Amy Klobuchar Tina Smith	Michelle Fischbach (07)	Island Living Inc.	\$54,000	This Rural Development investment will be used to provide additional financing to purchase and install equipment for an assisted living facility in the city of Bird Island. This project will help with pandemic preparedness by installing a heating, ventilation, and air conditioning unit with Johnson Controls that contain the necessary microbiological air cleaning and ionization technologies to kill airborne viruses and eliminate unwanted infectious materials in the air system.	1,042	3,349,864
MN	Amy Klobuchar Tina Smith	Michelle Fischbach (07)	Tracy Ambulance Service	\$91,700	This Rural Development investment will be used to purchase an ambulance and related equipment for Tracy Ambulance Service in Tracy, Minnesota. The project will improve responsiveness, reliability, and staff and patient safety — and help the community's ongoing economic recovery from and resilience to COVID-19. The ambulance offers a quality ventilation system and driver and front-riding staff compartment isolated from the rear patient and personnel area. Its interior surface materials are easier to sterilize. The ambulance service has used three ambulances, the oldest a 2016 model now requiring increased regular repair and maintenance costs. The service needs a more advanced ambulance to meet current virus-spread-reduction procedures and practices, with up-to-date technology and equipment for best patient care. Rural Development has awarded a \$91,700 Emergency Rural Health Care Grant for the \$262,000 vehicle purchase, which allowed continued affordable ambulance services to 2,163 residents in Tracy and Lyon County's eleven surrounding townships. Tracy Ambulance Service is a nonprofit founded in 1971.	2,163	3,199,569

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
MO	Josh Hawley Eric Schmitt	Jason Smith (08)	Big Springs Medical Association Inc.	\$8,414,000	This Rural Development investment will be used to construct a 102,560 square foot, three story health care facility. Construction of a centralized hub for obstetric, maternal fetal medicine, and pediatric specialists will help to better connect the 12 satellite clinics in the seven-county service area of the Big Springs Medical Association Inc. This project will consolidate and expand the association's existing service lines, including dentistry, which are currently housed at three separate locations in Poplar Bluff, Missouri. Behavioral health and substance use disorder providers will also be housed in the centralized hub. Support services such as case management, nutrition and Community Health Workers will also be part of the centralized hub care teams to provide high-quality, patient- entered care. The new centralized hub, once complete, will connect to their satellite clinics via telehealth connections. Once complete, this project will allow this Federally Qualified Health Center to better assist some of the most medically underserved persons in some of the most rural and remote areas of Missouri. The project is supported by the Rural Maternity and Obstetric Management - Southeast Missouri Partnership consortium.	102,447	3,349,250
MS	Roger Wicker Cindy Hyde-Smith	Michael Guest (03)	Covington County Board of Supervisors	\$6,868,600	This Rural Development investment will be used to increase access to and improve the quality of health care for underserved rural populations in south central Mississippi by implementing a uniform electronic health record (EHR) system across three hospitals, 18 clinics, and one skilled nursing facility. This will expand electronic health data sharing in service of aligning resources, achieving efficiencies, and reducing costs/increasing revenue in the wake of the COVID-19 pandemic.	9,498	3,339,062
MS	Roger Wicker Cindy Hyde-Smith	Bennie Thompson (02)	Sharkey Issaquena Community Hospital	\$968,200	This Rural Development Investment will be used to offset the burden that COVID-19 placed on Sharkey Issaquena Community Hospital including lost revenues, increased staffing expenses, and expenses incurred to protect the community and facility from the spread of COVID-19 throughout the duration of the pandemic.	6,322	3,350,413
MT	Jon Tester Steve Daines	Matt Rosendale (02)	Powder River County	\$43,700	This Rural Development investment will be used to purchase two ambulances and related emergency medical services (EMS) equipment. These services will upgrade the current EMS capability in the county and enable first-responders to continue providing critical emergency services to its more than 1,800 residents.	1,858	3,349,867
MT	Jon Tester Steve Daines	Matt Rosendale (02)	Valley View Home	\$232,728	This Rural Development investment will be used to restore Valley View Home's lost health care revenue incurred during the COVID-19 pandemic. Valley View Home opened in Glasgow, Montana, in 1965 and serves multiple counties in northeastern Montana. It was established as a non-profit skilled nursing facility to provide elderly care and support, and over the years has expanded its services to include adding a special unit to care for Alzheimer's patients and individuals suffering with traumatic brain injuries.	11,622	3,182,508
NC	Thom Tillis Ted Budd	Chuck Edwards (11)	Appalachian Mountain Community Health Centers	\$336,700	This Rural Development investment will be used to purchase COVID-19 medical supplies and equipment for Appalachian Mountain Community Health Centers (AMCHC). AMCHC is a non-profit corporation that provides encompass individualized treatment, health education, and community assistance from a team of providers that include physicians, nurses, licensed clinical social workers, community health workers, and peer support specialists. The proposed project will support virus mitigation efforts and provide medical supplies and equipment to increase medical surge capacity in Cherokee County, North Carolina. The project includes the purchase of supplies and state-of-the-art medical equipment to efficiently provide safe, timely, quality, and integrated health care services to include COVID-19 testing, treatment, and vaccine administration while becoming sufficiently prepared for any future pandemic or infectious outbreak. The equipment includes an electrocardiogram machine, vital sign monitors, COVID-19 testing supplies and vaccinations. The organization's overarching goals are to keep the community safe by decreasing the transmission of COVID-19 and increasing community awareness of current trends and levels of infection in the community. The new equipment and supplies will allow the organization to continue to provide medical services primarily for rural residents of the service area.	1,627	3,341,073

Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
NC	Thom Tillis Ted Budd	Greg Murphy (03)	Jones County	\$837,000	This Rural Development investment will be used to construct an approximately 3,480-square-foot facility for Jones County Emergency Medical Services in Trenton, North Carolina. The project will include two EMS bays, bedrooms, bathrooms, and storage, plus an office, decontamination room, dayroom, and kitchen. It will expand storage capacity for personal protective equipment; COVID-19 testing and vaccinations; and hiring of additional staff. Town officials recognize the rise in emergency calls, the steady medical demands from the COVID-19 pandemic, and the need to enhance and expand overall emergency services. The facility will primarily serve Trenton town residents.	287	3,227,812
NC	Thom Tillis Ted Budd	Greg Murphy (03)	Jones County	\$163,000	This Rural Development investment will be used to renovate the Jones County Emergency Services Department facility. This will serve as the county's main hub for emergency operations, providing more efficient emergency-response services for residents. The approximately 2,500-square-foot renovation will cover the main emergency operations room, two offices, two sleeping areas, personal protective equipment supply room, bathrooms, breakrooms, and a laundry room. The renovated facility will provide necessary accommodations for communication center employees while allowing for future growth and expansion.	10,153	3,227,811
NC	Thom Tillis Ted Budd	Greg Murphy (03)	Mount Carmel Helps Inc.	\$100,900	The Rural Development investment will be used to purchase food pantry equipment and supplies for Mount Carmel Helps Inc. A community-based organization, its mission is to help provide underserved people with basic needs and to reduce barriers making it difficult for them to experience a full life. The project will include walk-in freezers and shelving, cargo vans for food transportation and distribution, storage containers, food purchases, hot meal packaging, small kitchen wares, and condiments. The equipment and supplies will aid those sorely in need during the ongoing COVID-19 pandemic, and allow the organization to continue providing support for community food banks and distribution.	1,019	3,243,241
ND	John Hoeven Kevin Cramer	Kelly Armstrong (At Large)	Towner County Hospital Authority	\$1,000,000	This Rural Development investment will be used to purchase equipment for construction of an approximately 76,000-square-foot Critical Access Hospital (CAH) and nursing home for Towner County Hospital Authority (TCHA) in Cando, North Dakota. The project will consist of a 10-bed acute care hospital; a 30-bed long term care facility; and a 5-bed basic care unit. The hospital design includes public and administrative support spaces, dietary services, infrastructure support, primary clinic space, specialty clinic space, acute care, procedural suites, emergency, x-ray, CT, mammography, ultrasounds, DEXA, EKG, laboratory, and physical therapy. This consolidated-facilities project will establish modern, code-compliant, inpatient and outpatient care areas. This includes dramatic improvements to inpatient care, emergency department, and diagnostic imaging spaces. Upgrades will also occur across multiple patient care and support areas, including physical therapy, laboratory, ambulatory surgery, and central sterile. Infection control improvements such as proper space isolation and ventilation will be made throughout the facilities.	5,453	3,161,780
NE	Deb Fischer Pete Ricketts	Mike Flood (01)	City of Scribner	\$175,585	This Rural Development investment will be used to purchase a Demers RAM 5500 Diesel ambulance for the city of Scribner, Nebraska. The ambulance will allow Scribner Rescue Squad to continue its transport services to appropriate medical facilities and COVID-19 testing. A safe, reliable, modern vehicle will support immediate health care needs, be available for the next pandemic, and improve overall health outcomes for the community's 857 residents.	857	3,250,276
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Antelope Memorial Hospital	\$468,430	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 6,685 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	6,685	3,217,646

NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Brodstone Memorial Hospital	\$1,000,000	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 14,930 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	14,927	3,220,911
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Brown County Hospital	\$128,664	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 3,145 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	3,145	3,243,240
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Harlan County Health Systems	\$116,082	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 8,385 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	8,382	3,217,645
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Howard County Medical Center	\$194,704	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 11,995 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	11,995	3,213,398
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Johnson County Hospital	\$300,750	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 37,550 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	37,549	3,243,238
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Morrill County Community Hospital	\$599,901	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 5,045 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	5,042	3,220,910
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Niobrara Valley Hospital Corporation	\$59,125	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 2,100 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	2,099	3,213,400

NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Osmond General Hospital	\$31,822	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 24,820 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	24,819	3,243,236
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Phelps Memorial Health Center	\$590,930	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 9,190 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	9,188	3,243,237
NE	Deb Fischer Pete Ricketts	Adrian Smith (03)	Valley County Health System	\$1,000,000	This Rural Development investment will be used to reimburse a rural hospital's certified operating losses from the COVID-19 pandemic. The project will assist this community hospital in continued economic recovery from the pandemic. This helps ensure approximately 9,460 rural residents of the service area have equitable access to health care. By supporting health care staffing and operations, this project broadens access to COVID-19 testing and vaccines and to vital community health care. It also helps future pandemic preparations to improve community health outcomes.	9,461	3,221,939
NJ	Bob Menendez Cory Booker	Jeff Van Drew (02)	Inspira Health Network Inc.	\$1,000,000	This Rural Development investment will be used to purchase medical equipment for the Salem Medical Center. The project includes an EKG machine, BiPAP machines, ventilators, and defibrillators. This equipment will help the medical center better meet the long-term health care needs of more than 500,000 community residents.	522,597	3,244,605
NY	Chuck Schumer Kirsten Gillibrand	Nick Langworthy (23)	St. Stephen's Episcopal Church	\$268,900	This Rural Development investment will be used to renovate the Watson Ministry Center of St. Stephen's Episcopal Church, located in the city of Olean, in Cattaraugus County, New York. The funding will renovate the office space that the church currently uses to facilitate mental health counseling services for residents of Cattaraugus and Allegheny counties.	14,152	3,338,079
NY	Chuck Schumer Kirsten Gillibrand	Marc Molinaro (19)	The Center for Discovery Inc.	\$622,954	This Rural Development investment will support the design and construction of a Children's Specialty Hospital, in town of Thompson, which is located in Sullivan County, New York. The Center for Discovery (TCFD) will provide resident program spaces including an educational wing with classrooms, a Wellness Therapy Gym, Dining/Kitchen, Extension Health Clinic, as well as a Learning Center. The renovation impacts approximately 78,950 square feet of combined renovation on the first floor and lower level, with a 6,300 square foot addition on the first floor.	77,547	3,349,859
NY	Chuck Schumer Kirsten Gillibrand	Nick Langworthy (23)	The Gerry Homes	\$1,000,000	This Rural Development investment will be used to help offset the revenue lost from March 2020 through June 2022 due to lower volume resulting in lower revenue for the Gerry Homes in the town of Gerry, which is located in Chautauqua County, New York.	134,905	3,350,410
NY PA	Chuck Schumer Kirsten Gillibrand Bob Casey John Fetterman	Nick Langworthy (23) Glenn Thompson (15)	Olean General Hospital	\$1,000,000	This Rural Development investment will be used to help offset the revenue lost in 2021 due to lower volume of patients resulting in lower revenues for Olean General Hospital, which is in the City of Olean, in Cattaraugus County, New York. Olean General Hospital is doing business as (DBA) Bradford Regional Medical Center, which is in the city of Bradford, in McKean County, Pennsylvania.	43,450	3,328,456

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
OH	Sherrod Brown J.D. Vance	Bill Johnson (06)	Barton Volunteer Fire Department	\$41,000	This Rural Development investment will be used to purchase an ambulance. COVID-19 has put a strain on the Barton Volunteer Fire Department, Belmont County, Ohio. The current equipment and ambulances have outlived its useful life. The new ambulance will allow medical response to be more reliable and well-equipped to handle medical emergencies during the pandemic and beyond. This funding will help with continued emergency medical services, providing medical care to support the 5,184 community residents.	5,184	3,183,632
OH	Sherrod Brown J.D. Vance	Brad Wenstrup (02)	Beavercreek Medical Center dba Soin Medical Center	\$1,000,000	This Rural Development investment will be used to purchase equipment for a medical center being constructed in Wilmington, Ohio. The new clinic will give the 12,520 residents of Wilmington much needed medical assistance. It will include a rural health clinic, an emergency department, and laboratory and imaging services. Functions include providing vaccines, testing, and telehealth services while improving access to quality health care.	12,520	3,169,417
OH	Sherrod Brown J.D. Vance	Bill Johnson (06)	Marietta Memorial Hospital	\$10,000,000	This Rural Development investment will be used to launch a workforce development program designed to reduce nursing shortages in the healthcaresystem. Marietta Memorial Hospital (MMH) in Marietta, Ohio will also provide local residents with high-demand and high-wage jobs. MMH is part of the Memorial Health System (MHS), a nonprofit integrated health system providing health care services to rural and underserved populations - including in Athens, Monroe, Morgan, Noble, and Washington counties of Ohio; and Pleasants, Tyler, and Wood counties of West Virginia. MHS, Washington State Community College, and West Virginia University will use the emergency health-care grant. MHS will provide job opportunities and enhance healthcare for more than 200,000 Appalachian residents in rural Ohio and West Virginia. It is projected that approximately 300 students will also benefit from this project.	219,321	3,349,247
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Atoka County Emergency Medical Services	\$183,265	This Rural Development investment will be used purchase 51 new Automated External Defibrillator's (AED's) and an ambulance. The life-saving devices will be located in law enforcement vehicles, schools, libraries and county buildings throughout the county. Atoka County EMS will also purchase 51 pads for the AED's, as this will allow Atoka EMS the ability to respond to future pandemic surges and provide improved health care options. The ambulance purchase will solidify the fleet assuring the service area the best chance of rapid response and transport. The Atoka EMS is the only ambulance service available in the county to provide prehospital emergency medical care. At the present time, Atoka EMS has two quality first line ambulances and the secondary ambulance has accumulated many miles due to the increased call volume over the time of the peak of the COVID-19 pandemic. When an ambulance is out of service, Atoka EMS needs to have quality secondary ambulances to turn to for response. Without quality ambulances in their fleet, their response times and delivery of rapid patient care are decreased.	14,182	3,329,239 & 3,217,648
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Choctaw County Ambulance Authority	\$54,324	This Rural Development investment will be used to purchase tablets for medical reporting, digital radios, mobiles, truck, and base station for communications and Training Mannequins that will be used to better equip team members to perform the task of patient care during an emergency. Primary care access, trainings, and communications is a pressing challenge in rural communities in Southeastern Oklahoma. Choctaw County had 2,987 patient transport runs last year. Some of the challenges faced during the Covid-19 Pandemic were proper training of Emergency Medical Services personnel, reliable radio communications with health care professionals and other services due to the lack of digital radio communication in their fleet and electronic health information exchange with telehealth capabilities.	15,205	3,217,647

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Choctaw County Ambulance Authority	\$596,571	This Rural Development investment will be used to purchase two fully equipped ambulances, a bariatric stretcher, a first responder SUV and a video laryngoscope that will be used to better equip the team members to perform the task of patient care during an emergency. Primary care access, trainings, and communications is a pressing challenge in rural communities in Southeastern Oklahoma. Choctaw County had patient transport numbers of 2,987 total runs in 2022. Some of the challenges faced during the COVID-19 Pandemic was proper training of emergency medical services personnel, reliable radio communications with health care professionals and other services due to the lack of digital radio communication in their fleet and electronic health information exchange with telehealth capabilities.	15,205	3,349,861
OK	James Lankford Markwayne Mullin	Tom Cole (04)	Elmore City	\$423,250	This Rural Development investment will be used to purchase two ambulances. The current fleet of ambulances are costing the city of Elmore in extra maintenance/repairs due to age and usage. This grant will increase the safety and improve access to care for residents.	697	3,349,865
OK	James Lankford Markwayne Mullin	Tom Cole (04)	Grady Memorial Hospital Authority	\$352,269	This Rural Development investment will be used to purchase an upgrade of the Electronic Health Record Information System. Grady Memorial Hospital is a sole community hospital serving the rural area of Chickasha, Oklahoma. This grant project will allow upgraded, reliable information technology equipment to provide electronic health record capacity in clinics and at the patient bedside. This hardware, software and related services will enable the hospital to increase access to patient clinical records and other health information throughout points of service. Additionally, it will improve access to patient clinical information and the ability to respond to a future COVID-19 surge with better care for critical care inpatients, as well as improve telehealth and clinic visits.	16,036	3,217,649
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Hughes County EMS	\$102,263	This Rural Development investment will be used to purchase an ambulance and five air purifying systems. The fully equipped ambulance will offer dependable patient transportation. Additionally, the air purifying systems will provide a safer environment for the medical personnel and patients while being transported in the ambulance.	14,003	3,232,028
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Johnston County EMS	\$267,544	This Rural Development investment will be used to purchase two ambulances and two new patient lifts for ambulances. Johnston County Emergency Medical Services currently has two ambulances with more than 200,000 miles and they are at the end of their shelf life. The power lifts will place cots into and out of ambulances, reducing spinal loads and risk of cumulative injuries. This investment will lower maintenance costs, improve response times and increase the safety for EMS employees and the residents of Johnston County.	10,957	3,199,571 & 3,329,240
OK	James Lankford Markwayne Mullin	Frank Lucas (03)	Kiowa County Hospital Authority	\$370,882	This Rural Development investment will be used to upgrade magnetic resonance imaging (MRI) equipment and install a chiller required for its operation. This investment will allow training for the MRI technician. Additionally, this project will be used to purchase portable x-ray equipment with digital radiology capabilities to provide services to hospital patients and emergency room patients that cannot be transported to the radiology department due to mobility or critical nature of the patient. The equipment being replaced has far exceeded its useful life. With the new equipment it allows the facility the ability to respond to future pandemic surges and improved health care options.	9,446	3,334,984 and 3,238,831
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	McAlester Regional Healthcare Authority	\$402,500	This Rural Development investment will be used to purchase updated medical equipment to better serve Pittsburg County. The purchase of new software will help with the needs of rural health care and improve access to care.	45,837	3,349,868
OK	James Lankford Markwayne Mullin	Tom Cole (04)	Mercy Hospital Ada Inc.	\$1,000,000	This Rural Development investment will be used to purchase a broad range of equipment for Mercy Hospital in Ada, Oklahoma. The equipment being replaced has far exceeded its useful life. The new equipment will serve the needs of patients with COVID-19 and subsequent health issues both acutely and chronically. This project will also replace the loading dock to provide improved logistical support for the hospital. These improvements will allow the facility to respond to future pandemic surges and provide improved health care options.	16,810	3,187,385

Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Mercy Hospital-Tishomingo	\$890,670	This Rural Development investment will be used to purchase equipment for Mercy Hospital Tishomingo and will support its work serving the distressed community of Tishomingo, Oklahoma. Funds will be used to purchase critical equipment items that serve a broad plan of improving the hospital's ability to serve the needs of patients with Covid-19 and subsequent health issues, both acutely and chronically. Grant funds will be used to replace old equipment as well as implement new equipment to support the provision of care that meets current medical standards and improve response to future pandemics.	3,034	3,187,384
OK	James Lankford Markwayne Mullin	Frank Lucas (03)	Mercy Hospital-Watonga	\$62,923	This Rural Development investment will be used to purchase and install a digital X-Ray machine that will replace outdated equipment. The new equipment it will serve the needs its patients with COVID-19 and subsequent health issues both acutely and chronically. This project will also allow the facility the ability to respond to future pandemic surges and improve health care options.	5,111	3,233,461
OK	James Lankford Markwayne Mullin	Josh Brecheen (02)	Sequoyah County-City of Sallisaw Hospital Authority	\$30,450	This Rural Development investment will be used to purchase patient monitors and automated hematology equipment. The current monitors and hematology equipment is more than 10 years old and not performing at capacity.	42,391	3,226,998
OR	Ron Wyden Jeff Merkley	Cliff Bentz (02)	Oregon Food Bank Inc.	\$66,900	This Rural Development investment will be used to purchase a refrigerated box truck, fuel and insurance for two years to enhance capabilities to respond to increased food demands discovered during COVID-19. The Oregon Regional Food Bank located in Ontario, Oregon serves all of Malheur County which is a very large county and considered a food desert. They have to travel great distances to source food and deliver food. The current truck has aged out and a new reliable truck is needed to continue their mission of providing food. This project will ensure that the vital food bank facility will continue to provide essential food distribution to residents for years to come.	31,313	3,283,265
PA	Robert Casey John Fetterman	Mike Kelly (16)	Albion Volunteer Fire Department	\$83,400	This Rural Development investment will be used to purchase a Medix MSVII Type 1 Ambulance for the Albion Volunteer Fire Department in Albion Borough, Erie County, Pennsylvania. The ambulance will be used to provide pre-hospital emergency medical care and transport of patients to medical facilities.	1,516	3,190,689
PA	Robert Casey John Fetterman	Daniel Meuser (09)	Endless Mountains Health Systems Inc.	\$32,300	This Rural Development investment will be used to purchase a pharmaceutical dispensing cabinet. The equipment will be used in the hospital's emergency room department and store over 200 different types of medication for use in emergency and pandemic-related situations.	2,844	3,189,491
PA	Robert Casey John Fetterman	John Joyce (13)	McConnellsburg Volunteer Fire Company No. 1	\$562,500	This Rural Development investment will be used to purchase a 2020 Pierce Arrow Pumper. The McConnellsburg Volunteer Fire Company No.1 will use the new vehicle to replace a 1991 truck that is nearing the end of its useful life. The new vehicle will allow the company to provide more reliable service to the community.	1,220	3,335,934
PA	Robert Casey John Fetterman	Glenn Thompson (15)	New Love Center	\$117,500	This Rural Development investment will be used to purchase food supplies for a food pantry that will be distributed and stored in Jersey Shore, Pennsylvania. Funds will also be used to purchase a mobile food pantry unit to include an F350 truck and an enclosed pantry trailer, which will be upfitted with coolers, shelving, storage, and supplies. The organization primarily serves the residents of Clinton and Lycoming Counties by providing the daily and long-term needs of food, shelter and clothing.	3,215	□ 3,196,132 & 3,311,220
PR		Jennifer González-Colón	Municipality of Camuy	\$392,042	This Rural Development investment will be used to procure the essential equipment needed to meet the increase in medical health care needs in response to the COVID-19 pandemic and future health issues. This project will help the rural communities of the Municipality of Camuy.	35,159	3,089,641

**USDA
Emergency Rural Health Care Grants Program
July 25, 2023**

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
PR		Jennifer González-Colón	Guara Bi Inc.	\$26,027	This Rural Development investment will be used to build the telehealth infrastructure and secure computers and printers at Guara Bi Caney. The computer lab will be available to the public in Comerio. Guara Bi Caney serves homeless males 18 years and older, where they receive permanent housing, case management, life skills training and transportation services. The homeless population served also includes veterans, individuals living with a substance abuse disorder and/or mental illness, and individuals who are living with HIV/AIDS. Guara Bi also saw the need for telehealth services for the general population in Comerio, not just clients at Guara Bi Caney. In Guara Bi Caney telehealth options have been challenging because the office is not fully equipped with the proper upgraded computer equipment and connectivity throughout the building. This project will facilitate a needed technology overhaul and provide software and infrastructure upgrades.	2,300	3,093,918
PR		Jennifer González-Colón	Hospital Buen Samaritano	\$1,000,000	This Rural Development investment will be used to recover certified losses revenue due to the COVID-19 pandemic. The eligibility criteria is met considering that the municipality's wards are below 20,000 residents and have a median household income below the \$27,750 poverty line. The applicant's facility is located in a ward that is below the 5,000 resident threshold and the project is therefore eligible for 75 percent grant funding.	60,949	3,084,907
PR		Jennifer González-Colón	Hospital General Castaner	\$422,039	This Rural Development investment will be used to acquire an ambulance. Currently, the hospital lacks an ambulance unit that can meet the demand of this service. The main reasons for this need resulted from a unit that was involved in an accident and is currently under repair and the mechanical problems experienced with one of the old ambulance units. The ambulance services is critical in the regions were the HGC is the only hospital and health care provider. This project will improve the response time during emergency transfers to other acute care organization.	115,197	3,089,645
PR		Jennifer González-Colón	Hospital General Castaner	\$145,762	This Rural Development investment will be used to purchase two units of double wide 24 x 36 trailers to improve the working area of the Community Health Workers (CHW) and Remote Nutrition Programs employing ten full time employees. The service demands of the COVID-19 pandemic have overwhelmed Hospital General Castañer's medical services. The employees for these units currently do not have a permanent site of work. This project will improve access to health care services.	115,197	3,339,063
PR		Jennifer González-Colón	Municipality of Guaynabo	\$365,366	This Rural Development investment will be used to purchase ambulances to support the Municipality of Guaynabo's medical emergency services. The Municipality currently lacks sufficient capacity to deal with another pandemic and requires additional ambulance units to sustain medical services in the future.	26,289	3,136,642
PR		Jennifer González-Colón	Municipality of Moca	\$76,545	This Rural Development investment will be used to acquire vehicle extrication equipment, an electric transport stretcher, an evacuation chair, and a cardiac monitor for an ambulance. The aforementioned items are based on the specifications of the regulations for the ambulance service in Puerto Rico by the Municipal Office of Emergency, Disaster and Medical Emergency Management of the Municipality of Moca Works for safety and rescue efforts with a comprehensive approach to provide specialized assistance and attention. This project will help improve the response time and safety to preserve health. These facilities are located on Mario Medina street in the pueblo wards of Moca.	40,109	3,084,908
RI	Jack Reed Sheldon Whitehouse	David Cicilline (01)	Town of Tiverton	\$505,948	This Rural Development investment will be used to buy and install mobile communication equipment and an emergency medical communication network for use by all the public safety workers in the town, the 15,235 residents of Tiverton and nearby rural communities.	15,235	3,183,637

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
SC	Lindsey Graham Tim Scott	Nancy Mace (01)	Town Of Lincolnville	\$96,334	This Rural Development investment will be used to purchase a mini pumper and emergency medical supplies. These items will increase the town's ability to respond to medical emergencies on rural roads. Refrigerators will also be purchased for their food distribution partnership. This equipment will enable the town of Lincolnville to provide increased medical care and food distribution to the rural residents now and during future pandemics improving the health outcomes and equal access to medical and food services.	1,139	3,189,492
SC	Lindsey Graham Tim Scott	William Timmons (04)	Edward Via College of Osteopathic Medici	\$562,500	This Rural Development investment will be used to deploy Edward Via College Osteopathic Medicine - Carolinas Campus mobile medical unit in week-long medical mission experiences to deliver primary care health services, including COVID-19 prevention and support services, to targeted rural areas in both Spartanburg and Cherokee counties, two areas that experience some of the greatest health disparities in the state of South Carolina. This mobile medical unit will provide medical outreach initiatives and long-term health services such as the free medical clinic.	1,863	3,283,266
SC	Lindsey Graham Tim Scott	Jim Clyburn (06)	Town of Mayesville	\$550,000	This Rural Development investment will be used to build a multipurpose community center that will provide medical services and emergency food distribution regularly and in the event of a pandemic or natural disaster. The facility would be able to distribute vaccines not just to the town of Mayesville, but to surrounding rural residents. This community center will have the necessary devices and supplies to accommodate more people with health services. In addition to providing vaccinations and medical assistance, this facility will also support residents by distributing food.	731	3,283,264
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Burke Community Memorial Hospital Inc.	\$275,000	This Rural Development investment will be used to purchase a computerized tomography (CT) scanner and furniture that can be cleaned to meet the COVID-19 cleaning standards. The current CT scanner is so old, parts have become obsolete. This is a vital piece of equipment when determining treatment of patients. The furniture purchased will replace current furniture with porous surfaces that cannot easily be sterilized throughout the clinic and hospital.	4,271	3,168,473
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Douglas County Memorial Hospital Inc.	\$172,000	This Rural Development investment will be used to purchase a CT scanner and an Omnicell Medication Unit. The funds will be used to replace their current CT scanner, which is a vital piece of equipment when diagnosing and treating patients. The Omnicell Medication Unit will significantly reduce the amount of time nursing staff need for vaccine and medication management, allowing them to focus on the patient's medical needs.	5,535	3,233,462
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Edgemont Senior Citizen Club	\$48,000	This Rural Development investment will be used to purchase kitchen appliances by the Edgemont Senior Citizen Club. The appliances will allow them to keep up with the demand for affordable or free healthy meals for senior and disabled citizens in Edgemont. They have meals available at their center or delivery to shut ins. The volunteers not only provide meals but check in on people to make sure they are safe and all right.	774	3,327,840
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Fall River Health Services	\$341,000	This Rural Development investment will be used to replace and update equipment and improve technology to triage patients more efficiently and effectively. Fall River Health Service will use the funding to improve their ability to diagnose, treat, handle patient surges, and mitigate the spread of COVID-19 and other infectious diseases.	15,373	3,221,938
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Horizon Health Care Inc.	\$36,000	This Rural Development investment will be used to update Horizon Health Care Inc.'s backup and cyber security equipment. This equipment will enhance the telehealth services as well as software licensing updates. They also will update their IT departments computers, as they work with all 23 counties and play a role in supporting the clinics with the telehealth services and the telehealth system. This project will benefit a large area of South Dakota, including underserved areas on Native American reservations.	107,883	3,216,138
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Lewis & Clark Behavioral Health Services	\$677,000	This Rural Development investment will be used to provide additional funding for the construction of the new Lewis and Clark Behavioral Health Services (LCBHS) facility. LCBHS was established in 1977 to provide behavioral health and substance abuse services, and has been operating out of several buildings located at different sites throughout Yankton, South Dakota. The new facility will house all services in a 59,616 square foot building and provide safe, private and high level of care.	130,442	3,349,249

USDA
Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Mobridge Regional Hospital	\$1,000,000	This Rural Development investment will be used to replace, update and improve technology used to treat, diagnose and mitigate the spread of COVID. Funds will be used to purchase numerous items including an ambulance, CT scanner, digital x-ray machine, and to staff monthly vaccine and booster clinics for the next three years. Mobridge Regional Hospital is one of eight Trauma Level 4 hospitals in the state, thus essential to South Dakota's rural health care system.	16,076	3,236,201
SD	John Thune Mike Rounds	Dusty Johnson (At Large)	Walworth County Care Center Inc.	\$44,000	This Rural Development investment will be used to expand Walworth County Care's heating, ventilation, and air conditioning (HVAC) unit. This project will also add a Global Plasma Solution Equipment filtration system to the Walworth County Care. This will improve their air quality and effectively mitigate the spread of COVID-19 and other infectious diseases that are spread through air borne particles.	16,255	3,224,010
TN	Marsha Blackburn Bill Hagerty	Mark Green (07)	Maury Regional Hospital	\$700,861	This Rural Development investment will be used to renovate Collinwood Primary Care Clinic, purchase medical supplies and equipment, as well as assist in payment of salaries. The clinic is in urgent need of repairs, which grew worse during the COVID-19 pandemic. Renovations will allow the clinic to better serve the rural citizens of Wayne County, Tennessee and allow for better preparations for future pandemics.	17,201	3,236,204
TN	Marsha Blackburn Bill Hagerty	Scott DesJarlais (04)	South Central Human Resource Agency	\$481,418	This Rural Development investment will be used to purchase a box truck for the Commodities program which will be used for emergency food deliveries, and to assist the Meals-on-Wheels program in purchasing nine delivery vans, as well as replace kitchen and cooking equipment that are beyond their useful life. Food deliveries in the service area have continued to increase since the onset of the COVID-19 pandemic, causing major wear and tear on the already aged vehicles. The vehicles and equipment will allow for more reliable deliveries without the added cost of extensive maintenance and repairs and will be better suited to provide services to Fayetteville and Hohenwald, Tennessee residents.	10,584	3,230,991 & 3,230,992
TN	Marsha Blackburn Bill Hagerty	Scott DesJarlais (04)	Southeast Tennessee Human Resource Agency	\$208,137	This Rural Development investment will be used to purchase vehicles, equipment, and salary assistance for the Southeast Tennessee Human Resource Agency (SETHRA), Commodities Program. This funding will assist in purchasing updated food storage equipment and refrigeration systems as well as delivery vehicles and salary assistance that will better enable SETHRA to continue its vital work of food delivery to the rural residents of Athens, Coalmont, Decatur, Ducktown, Dunlap, and Pikeville, Tennessee.	4,815	3,238,832
TX	John Cornyn Ted Cruz	Michael Cloud (27)	El Campo Memorial Hospital	\$662,543	This Rural Development investment will be used to reimburse El Campo Memorial Hospital for extra staffing expenses incurred between July 1, 2020 through December 31, 2020, due to COVID-19 testing, vaccine, and patients treated for COVID-related illnesses. The expenses spread over 19 departments and affected 91 employees within the hospital and clinics' service area. In July 2020, a tent outside the main hospital building was setup to minimize exposure to COVID. This project will help the hospital provide additional staffing for COVID-19 testing, vaccines, and health care services to a medically underserved area.	49,500	3,175,029
VA	Mark Warner Tim Kaine	Ben Cline (06)	Bath County Community Hospital	\$850,500	This Rural Development investment will be used to purchase an X-ray machine and electronic medical records system subscription for a small Critical Access Hospital that provides care for the medically underserved communities of Bath, Highland and Alleghany counties. The equipment was damaged in an electrical fire, forcing staff to use a portable machine that is inadequate in many cases. Bath County Community Hospital will acquire a patient-side fluoroscopy and radiography system with dynamic flat-panel detector technology, adjustable height table and true dual use capability similar to the Siemens Luminos Agile Max. The subscription will give doctors quick access to health records from labs and clinic emergency rooms, which will not only improve patient care but will be critical to treatment of the coronavirus and future pandemics impacting the nearly 30,000 residents.	29,263	3,241,965

Emergency Rural Health Care Grants Program
July 25, 2023

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
VA	Mark Warner Tim Kaine	Morgan Griffith (09)	Mount Rogers Community Services Board	\$5,000,000	This Rural Development investment will be used to increase capacity to provide mental health, developmental disability and substance abuse disorder treatment programs at the Mount Rogers Community Services (MRCS) Smyth County campus. The Rhea B. Lawrence Recovery Center will be expanded to include a second eight-bed unit, which will double the space available for providing residential services. The crisis care center will be relocated from an offsite leased facility to enable MRCS to centralize treatments and offer a full array of referral-based outpatient services in one location. These steps will help to elevate the quality of care available to the 32,208 residents of the applicant's service area, which includes Bland, Carroll, Grayson, Smyth and Wythe counties as well as the city of Galax.	32,208	3,335,933
VA	Mark Warner Tim Kaine	Morgan Griffith (09)	Rector & Visitors of the University of Virginia	\$5,118,100	This Rural Development investment will be used to enable the Virginia Consortium to Advance health care in Appalachia to make telemedicine and health care resources more accessible for people in rural Virginia. Funds will expand regional networks that will share resources, training and educational opportunities for rural people across the Commonwealth.	155,938	3,175,030
WA	Patty Murray Maria Cantwell	Marie Perez (03)	City of Raymond	\$459,200	This Rural Development investment will be used to purchase two ambulances and associated equipment. This will significantly improve reliability, response time and ease of decontamination of the units. The Fire District will be using the new fleet to improve the distribution and implementation COVID-19 vaccinations and transport of patients.	8,751	3,193,357
WA	Patty Murray Maria Cantwell	Derek Kilmer (06)	Clallam Fire District #2	\$95,500	This Rural Development investment will be used to purchase an ambulance and necessary equipment for Clallam Fire District 2 that will enhance their ability to service the community through distribution of COVID-19 vaccinations, COVID-19 testing, and implementation of the Community Health Triage Program while significantly improving the safety of the emergency medical services staff and their ability to respond to emergency calls. Due to the rural nature of the area and unforeseen circumstances, a four-by-four vehicle is required to access some of the most venerable residents. This underserved community relies on Fire District # 2 for more than just fire and Ambulance coverage but full community support. All throughout the year, Fire District #2 ensures that local families are not forgotten by providing full-service help with disaster training and preparedness readiness, due to its location on the peninsula. This Fire Department and staff of Volunteers take their sense of community to the next level, and it is great to be able to offer them our support.	8,934	3,182,507
WA	Patty Murray Maria Cantwell	Derek Kilmer (06)	Clallam Fire District 4	\$79,800	This Rural Development investment will be used to purchase two power lift gurneys. The equipment will enhance Clallam Fire District 4's ability to better serve the district through distribution of COVID-19 vaccinations, COVID-19 testing, and implementation of the Community Health Triage Program while significantly improving the safety of the emergency medical staff (EMS) staff and their ability to respond to emergency calls on the Olympic Peninsula.	2,000	3,218,749
WA	Patty Murray Maria Cantwell	Dan Newhouse (04)	Grant County PHD #1	\$1,000,000	This Rural Development investment will be used to replace an ageing hospital and health care facility past its useful life with a modern building offering more services, capacity and health care providers in the Community of Moses Lake and the Grant County service area. The current facility has been added to and built on since the original building in the 1940's. This has been an issue for a community that is growing, working to keep up with health care demands and outsources to other hospitals due to this dilemma. This grant is designated for hospital equipment in the new facility once constructed.	20,366	3,349,863
WA	Patty Murray Maria Cantwell	Cathy Rodgers (05)	Pend Oreille County Fire District #3	\$428,000	This Rural Development investment will be used to purchase two ambulances and associated equipment. This will significantly improve reliability, response time and ease of decontamination of the units. The Fire District will be using the new fleet to improve the distribution and implementation COVID-19 vaccinations and transport of patients.	5,882	3,187,387

State	Senators	Representative(s)	Recipient	Grant	Project Description	People Benefited	Control Number
WA	Patty Murray Maria Cantwell	Derek Kilmer (06)	Port Angeles Food Bank	\$81,500	This Rural Development investment will be used to expand the Port Angeles Food Bank, which provides services to 13 area food pantries, including four tribal communities. The food bank is the lead contractor for the Washington State Department of Agriculture Emergency Food assistance program for Clallam County. The grantee has added a kitchen to the new facility to meet the increased need and these funds will help support this necessary expansion and provide the ability to provide grab and go foods for the clientele. The kitchen will also reduce waste by using the donated food that is close to pull date and adding ready to eat meals to the freezer section. This enables the food bank to provide services with compassion and respect with a commitment to promote healthy eating.	71,000	3,348,002
WA	Patty Murray Maria Cantwell	Rick Larsen (02)	Whatcom County Fire District No. 8	\$111,300	This Rural Development investment will be used to purchase an ambulance and related equipment that will serve the Marietta community and the Lummi Nation Reservation. The population residing in this area are low income and racially diverse. The new ambulance and related equipment will replace an older ambulance and allow WCFD8 to respond to the increased call volume due to the COVID pandemic. The district also participates in vaccination clinics on the reservation and is on standby in case of a medical event.	9,200	3,302,820
WI	Ron Johnson Tammy Baldwin	Mark Pocan (02)	Reedsburg Area Medical Center Inc.	\$1,000,000	The Rural Development investment will be used to equip the new clinic building with new equipment, and allow the clinic to provide additional and timely medical services to the community. Funds will also provide additional testing for COVID19, new telehealth services, behavioral health services with increased need due to the pandemic, and retail pharmacy housing COVID testing and vaccination equipment.	9,200	3,237,525
WI	Ron Johnson Tammy Baldwin	Mark Pocan (02)	Upland Hills Health Inc.	\$1,000,000	This Rural Development investment will be used to replace the Mineral Point clinic which is housed in a building built in 1880. Due to the COVID-19 pandemic there has been a drastic increase in patient needs for services which cannot be accommodated by the outdated facility. This project will include the construction of a new clinic building which will create an up to date and Americans with Disabilities Act compliant facility. In addition to an updated facility, the clinic will include a drive thru pharmacy to increase the ability to socially distance and will provide additional clinic space for patient access to health care professionals. New equipment at the facility will be up to date and allow the clinic to provide additional and timely medical services to the community as well as provide additional testing for COVID-19 and vaccination distribution.	2,581	3,237,523
WY	John Barrasso Cynthia Lummis	Harriet Hageman (At Large)	South Central Wyoming Emergency Medical Services (SCWEMS)	\$167,725	This Rural Development investment will be used to purchase an ambulance for South Central Wyoming Emergency Medical Services (SCWEMS). SCWEMS provides emergency medical services to stabilize patients until arrival to the hospital, which is 40 or 71 miles away dependent upon hospital location and road conditions. The ambulance will serve the communities of Hanna, Medicine Bow and Elk Mountain, which mainly consist of farming, ranching and mining jobs. The ambulance will be stationed in Hanna, which is a distressed community, and it will eliminate the 40 mile drive to start emergency stabilization services. SCWEMS' mission is to provide a quality system of pre-hospital care, reduce death and disability, and ensure the health and well being of those in the service area.	1,316	3,233,993
WY	John Barrasso Cynthia Lummis	Harriet Hageman (At Large)	St. Joseph's Children's Home	\$1,000,000	This Rural Development investment will be used to increase ventilation necessary to protect St. Joseph's Children's Home youth and staff in its residential buildings. St. Joseph's Children's Home will upgrade its heating, ventilation, and air conditioning (HVAC) systems, which is critical to increase the airflow and air quality to protect the youth, staff, and visitors at the facility from COVID-19 and other infectious diseases. An upgraded HVAC will also reduce energy consumption and extend the use of the existing residential facilities to help ensure that St. Joseph's Children's Home can continue to serve Wyoming children and families in need of psychiatric residential treatment for years to come.	6,501	3,236,203
WY	John Barrasso Cynthia Lummis	Harriet Hageman (At Large)	West Park Hospital District	\$371,800	This Rural Development investment will be used to provide crucial equipment needed by the West Park Hospital District in Cody to fight the COVID-19 pandemic: patient care monitors, hospital beds, lifts and more. These upgrades will help an underserved area fight future infectious disease outbreaks.	9,332	3,172,018
