U.S. Agricultural Cooperative Statistical Data and Reports

For requests please email: coopinfo@usda.gov

Recent Agricultural Cooperative Statistics Reports

USDA collects cooperative statistical data from the population of U.S. agricultural cooperatives annually. Aggregated statistical results are published in an annual comprehensive statistical report, and as well, includes a section on the Nation's Top 100 cooperatives as ranked by total business volume.

The 2019 report is online here: Service Report 83 *Agricultural Cooperative Statistics, 2019*: https://www.rd.usda.gov/sites/default/files/publications/sr83_agriculturalcooperativestatistics_2019.pdf

The tables and charts that are in the 2019 report are available in Excel workbook format (*USDA Historical Farmer Cooperative Statistics, 1913-2020*). Service Report 84, Agricultural Cooperative Statistics, 2020 will be available soon, but the tables in that report are available in the Excel workbook.

Also available by request is an Excel workbook of **United States maps of the 2020 state-level data**. (Note that It is a rather large file.)

U.S. Agricultural Cooperative Directory in Excel Format

The "Directory of Rural Farmer, Rancher, and Fishery Cooperatives" (previously Service Report 22) is updated on a regular basis and is available in Excel workbook format (the hard copy reports found online are dated).

Historical Agricultural Cooperative Data in Excel Format

As mentioned above, USDA has available an Excel workbook file of aggregated historical data and aggregated data from more recent years. *USDA Farmer Cooperative Statistics 1913-2020* is the latest.
