

Rural Energy for America Program - Missouri Projects December 3, 2021

State	Sen.	Rep.	Recipient	Grants	Project Description
MO	Roy Blunt, Josh Hawley	Emanuel Cleaver (05)	Alan Vogelsmeier	\$6,708	This Rural Development investment will be used to help Alan Vogelsmeier purchase and install a 15.2-kW solar array for his crop farm in Concordia, Missouri. This project is expected to save the business \$1,950. It will replace 24,410 kilowatt hours (kWh) (71.6 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Alarm Services Company, LLC	\$20,000	This Rural Development investment will be used to help Alarm Services Company LLC, a retail gun and shooting equipment center in Wright City, Missouri, install a 100-kilowatt solar array system. This project is expected to save \$13,371 per year. It will replace 133,707 kilowatt hours (kWh) (96 percent of the company's energy use) per year, which is enough electricity to power 12 homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Architectural Systems Incorporated	\$12,876	This Rural Development investment will be used to help Architectural Systems Incorporated install energy efficient LED lighting in three locations. Architectural Systems Incorporated is a manufacturer of aluminum windows and is a full-service metal forming, fabricating, finishing, and engineering company in Monett, Aurora, and Granby, Missouri. This project will save the company \$12,385 per year and will replace 86,048 kilowatt hours (kWh) (52 percent of the company's energy use) per year, which is enough electricity to power seven homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Arning Holding Company	\$11,145	This Rural Development investment will be used to help the Arning Holding Company purchase and install LED lighting throughout its facility. The company is a fabricator of petroleum canopies located in Cassville, Missouri. This project is expected to save \$9,141 per year. It will replace 743,018 kilowatt hours (kWh) (11 percent of the company's energy use) per year, which is enough electricity to power 68 homes.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Austin T. Henderson	\$8,761	This Rural Development investment will be used to help Austin Henderson's family owned farm, dba Henderson Farms, purchase and install a 5.94-kilowatt solar array. This project is expected to save \$824 per year. It will replace 8,290 kilowatts kWh (7 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Austin White	\$2,204	This Rural Development investment will be used to help Austin White, a firearms and ordnance accessories manufacturer in Olean, Missouri, install insulation, a heat pump and LED lighting retrofits. This project is expected to save \$938 per year. It will replace 9,594 kilowatt hours (kWh) (60 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Emanuel Cleaver (05)	Bar 7, Inc.	\$20,000	This Rural Development investment will be used to help Bar 7 Inc., a row crop farming operation in Richmond, Missouri, install a new grain drying system for two grain bins. This project is expected to save \$15,210 per year. It will replace 191,996 kilowatt hours (kWh) (51 percent of the operation's energy use) per year, which is enough electricity to power 17 homes.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	Blue Ribbon Vending, LLC	\$20,000	This Rural Development investment will be used to help Blue Ribbon Vending, L.L.C., a vending company located in Moberly, Missouri, purchase and install a 99-kilowatt solar array. It will save the business \$10,103 per year. The solar array will replace 124,537 kilowatt hours (kWh) (50.55 percent of the company's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Braunschweig Processing, LLC	\$25,436	This Rural Development investment will be used to help Braunschweig Processing, LLC, a family-owned meat processing business in Neosho, Missouri, install a 60.80-kilowatt solar array. This project is expected to save the business \$11,147 per year. It will replace 88,331 kilowatt hours (kWh) (67.05 percent of the company's energy use) per year, which is enough electricity to power eight homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Brick House Hotel of Branson, LLC	\$35,464	This Rural Development investment will be used to help Brick House Hotel of Branson, LLC, a hotel in Branson, Missouri, install 91.52-kilowatt solar array. This project is expected to save the business \$13,245 per year. It will replace 133,095 kilowatt hours (kWh) (74.77 percent of the hotel's energy use) per year, which is enough electricity to power 12 homes.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Buell Acres GP	\$20,000	This Rural Development investment will be used to help Buell Acres G.P., a row crop farming operation in Montgomery City, Missouri, install a grain drying system for eight grain bins. This project is expected to save the farm \$6,966 per year. It will replace 68,904 kilowatt hours (kWh) (30 percent of the farm's energy use) per year, which is enough electricity to power six homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Busenbark Carpet, Inc.	\$20,000	This Rural Development investment will be used to help Busenbark Carpet, Inc. in Farmington, Missouri, purchase and install a 75-kW solar array. This project will save \$9,734 per year in electrical costs. It will replace 91,699 kilowatt hours (kWh) (57 percent of the company's energy use) per year which is enough electricity to power eight homes.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	Callis, LLC	\$9,025	This Rural Development investment will be used to help Callis, LLC a real estate rental in Sedalia, Missouri purchase and install a 17.2-kW solar array. This project is expected to save the business \$2,357 per year. It will replace 21,427 kilowatt hours (kWh) (77.6 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Cambridge Plumbing, Inc.	\$7,400	This Rural Development investment will be used to help Cambridge Plumbing Inc., a plumbing parts manufacturer in Kirksville, Missouri, install a 14-kilowatt solar array system. This project is expected to save \$1,830 per year. It will replace 17,906 kilowatt hours (kWh) (86 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Carl Thompson	\$33,120	This Rural Development investment will be used to assist Carl Thompson, an agricultural producer, install a new 73.6-kilowatt (kW) solar array at his swine facility in Monroe City, Missouri. This project is expected to save \$9,519 per year. It will replace 103,913 kilowatt hours (kWh) (90 percent of the facility's energy use) per year, which is enough electricity to power nine homes.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Certified Performance & Auto Repair, Inc.	\$14,360	This Rural Development investment will be used to help Certified Performance & Auto Repair Inc, an auto repair shop located in Moscow Mills, Mo., purchase and install a 27.75-kilowatt solar array system. This project is expected to save \$2,715 per year. It will replace 34,807 kilowatt hours (kWh) (88 percent of the company's energy use) per year.

Rural Energy for America Program - Missouri Projects December 3, 2021

State	Sen.	Rep.	Recipient	Grants	Project Description
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Chillicothe Ford, Inc.	\$20,000	This Rural Development investment will be used to help Chillicothe Ford, Inc. purchase and install a 85.6-kW solar array system. The company is a new car dealership located in Chillicothe, Missouri. This project is expected to save the business \$10,345 per year. It will replace 120,039 kilowatt hours (kWh) (100 percent of the company's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Corbin Farms, LLC	\$15,940	This Rural Development investment will be used to help Corbin Farms, LLC, a row crop farming operation in Mound City, Missouri, install a new grain drying system. This project is expected to save \$8,449 per year. It will replace 113,302 kilowatt hours (kWh) (73 percent of the company's energy use) per year, which is enough electricity to power ten homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Curvin D. Horning	\$28,074	This Rural Development investment will be used to help Curvin Horning, the owner and operator of a dairy and hog operation, purchase and install a 82.08-kW solar array system. This project is expected to save \$11,220 per year. It will replace 99,327 kilowatt hours (kWh) (92 percent of the farm's energy use) per year, which is enough energy to power nine homes.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	D&C Pork, LLC	\$39,520	This Rural Development investment will be used to help D & C Pork, LLC, a swine production facility in Thompson, Missouri, install a 99.2-kW solar array. This project is expected to save \$10,754 per year. It will replace 141,058 kilowatt hours (kWh) (96 percent of the farm's energy use) per year, which is enough electricity to power 13 homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	David R. Leeper	\$33,496	This Rural Development investment will be used to assist David Leeper, an agricultural producer, install an 84.24 kilowatts (kW) solar array at his swine facility in Gallatin, Missouri. This project is expected to save \$12,470 per year. It will replace 128,316 kilowatt hours (kWh) (91 percent of the facility's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	DDAB Farms	\$9,750	This Rural Development investment will be used to help DDAB Farms, a row crop farming operation in Caruthersville, Missouri, install 20-kilowatt and 6-kilowatt solar array systems on its farm buildings. This project is expected to save \$3,976 per year. It will replace 36,145 kilowatt hours (kWh) (100 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Don Medlin Company	\$49,997	This Rural Development investment will be used to assist Don Medlin Company, a family-owned retailer of new and used farm equipment in Caruthersville, Missouri, purchase and install a 133.53-kilowatt solar array system. This project is expected to save \$20,236 per year. It will replace 202,362 kilowatt hours (kWh) (96 percent of the company's energy use) per year, which is enough energy to power 18 homes.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Donald Bungart	\$5,600	This Rural Development investment will be used to help Donald Bungart, owner of Bungart Motorsports LLC (a pulling sled rental business in Jefferson City, Missouri), purchase and install a 8.96-kW solar array. This project is expected to save \$1,052 per year. It will replace 12,290 kilowatt hours (kWh) (95 percent of the company's energy usage) per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Ennis Implement Company, LLC	\$15,960	This Rural Development investment will be used to help Ennis Implement Company, LLC, an implement dealership located in Vandalia, Missouri purchase and install a 44-kW solar array. This project is expected to save the business \$7,266 per year. It will replace 55,889 kilowatt hours (kWh) (100 percent of the company's energy use) per year, which is enough electricity to power five homes.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03), Vicky Hartzler (04)	Ennis-Childs Operations, LLC	\$20,000	This Rural Development investment will be used to help Ennis-Childs Operations, LLC, a farm and garden merchant wholesaler in Mexico, Missouri, install a 45-kW solar array and a 75-kW solar array at its branch location in Troy, Missouri. This project is expected to save \$13,203 per year. It will replace 154,734 kilowatt hours (kWh) (96 percent of the company's energy use) per year, which is enough energy to power 14 homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Freedom Machining, LLC	\$29,210	This Rural Development investment will be used to help Freedom Machining, LLC, a machine shop in Purdy, Missouri, install a 73.71-kilowatt solar array. This project is expected to save the business \$13,223 per year. It will replace 101,716 kilowatt hours (kWh) (100 percent of the company's energy use) per year, which is enough electricity to power nine homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Fun Jug Media, LLC	\$4,639	This Rural Development investment will be used to help Fun Jug Media LLC, a media management business located in Kirksville, Missouri, install a 9.88 kW solar array system connected to a battery backup energy storage system. This project is expected to save \$1,006 per year. It will replace 12,573 kilowatt hours (kWh) (91 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	Golden City Meats, LLC	\$48,750	This Rural Development investment will be used to help Golden City Meats, LLC, a small locally owned meat processing business in Golden City, Missouri, install a 100-kilowatt solar array. This project is expected to save the business \$11,127 per year. It will replace 150,401 kilowatt hours (kWh) (78.27 percent of the company's energy use) per year, which is enough electricity to power 13 homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Grellner Sales & Service, Inc.	\$5,903	This Rural Development investment will be used to help Grellner Sales & Service, Inc install new energy efficient LED lighting throughout its warehouse. Grellner Sales & Service, Inc. is a wholesaler of packaged beverages in Rolla, Missouri. The new lighting is expected to save the company \$5,251 in electrical costs per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Henke Bauernhofe, Inc.	\$31,114	This Rural Development investment will be used to help Henke Bauernhofe, Inc., a swine production operation in Princeton, Missouri, install a 81.9-kW solar array. This project is expected to save \$11,689 per year. It will replace 123,691 kilowatt hours (kWh) (100 percent of the farm's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Henke Brothers Hog Farms, LLC	\$22,839	This Rural Development investment will be used to help this swine production operation in Princeton, Missouri install 23.4-kW and 35.88-kW solar arrays. This project is expected to save \$8,444 per year. It will replace 89,529 kilowatt hours (kWh) (76 percent of the farm's energy use) per year, which is enough electricity to power eight homes.

Rural Energy for America Program - Missouri Projects December 3, 2021

State	Sen.	Rep.	Recipient	Grants	Project Description
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Hillside Farms, Inc.	\$20,000	This Rural Development investment will be used to help Hillside Farms, a swine production facility in Princeton, Missouri, install a 53.04-kW solar array. This project is expected to save \$7,506 per year. It will replace 80,105 kilowatt hours (kWh) (76 percent of the farm's energy use) per year, which is enough electricity to power seven homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Jonas Duckett	\$39,841	This Rural Development investment will be used to help Fortune Holdings, LLC, a climate controlled storage facility in Poplar Bluff, Missouri, install a 66.96-kilowatt solar array system. This project is expected to save \$8,684 per year. It will replace 91,235 kilowatt hours (kWh) (70 percent of the company's energy use) per year, which is enough electricity to power eight homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Kabinet Korner, Inc.	\$86,800	This Rural Development investment will be used to help Kabinet Korner, Inc., a cabinet manufacturer in Webb City, Missouri, install a 224-kilowatt solar array system. This project is expected to save the business \$39,628 per year. It will replace 301,244 kilowatt hours (kWh) (92 percent of the company's energy use) per year, which is enough electricity to power 27 homes.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	Kenneth Barber	\$12,521	This Rural Development investment will be used to help Kenneth Barber, owner and operator of a produce farm (Green Gate Family Farm) in Wheatland, Missouri, purchase and install a 23.24-kW solar array. This project is expected to save \$2,600 per year. It will replace 24,978 kilowatt hours (kWh) (69 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Klance Staging, Inc. dba Klance Unlimited	\$20,000	This Rural Development investment will be used to help Klance Staging Inc., a staging services business in Pacific, Missouri, purchase and install an 86-kilowatt solar array system. This project is expected to save the business \$9,152 per year. It will replace 101,749 kilowatt hours (kWh) (84 percent of the company's energy use) per year, which is enough energy to power nine homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	KMB Enterprises, LLC dba Kings Auto Service	\$8,171	This Rural Development investment will be used to help KMB Enterprises, LLC dba Kings Auto Service purchase and install a 9.9-kW solar array. This business is a used car sales, car repair, and towing service located in Aurora, Missouri. This project is expected to save the business \$1,943 per year. It will replace 14,948 kilowatt hours (kWh) (83.5 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Logo Daddy Graphics, LLC	\$20,000	This Rural Development investment will be used to help Logo Daddy Graphics, LLC, a graphics business in Hillsboro, Missouri, purchase and install a 40-kW solar array. This project is expected to save the business \$4,580 per year. It will replace 47,054 kilowatt hours (kWh) (84 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Emanuel Cleaver (05)	Mark Stuenkel	\$9,056	This Rural Development investment will be used to help Mark Stuenkel, the owner and operator of a crop farm in Concordia, Missouri, purchase and install a 20.2 kilowatts (kW) solar array. This project is expected to save \$2,164 per year. It will replace 31,017 kilowatt hours (kWh) (73.8 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Emanuel Cleaver (05)	Meyer Motors, Inc.	\$17,700	This Rural Development investment will be used to help Meyer Motors, Inc., a new and used car dealer located in Concordia, Missouri, purchase and install a 41.25-kW solar array. This project is expected to save \$5,550 per year. It will replace 49,480 kilowatt hours (kWh) (62 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	MFAF Holdings, LLC	\$20,000	This Rural Development investment will be used to help MFAF Holdings, a wholesale greenhouse and plant nursery in Harrisonville, Missouri, install a 100-kW solar array. This project is expected to save \$11,331 per year. It will replace 127,578 kilowatt hours (kWh) (42 percent of the company's energy use) per year which is enough electricity to power 11 homes.
MO, AR	Roy Blunt, Josh Hawley (MO), Tom Cotton, John Boozman (AR)	Billy Long (MO 07), Rick Crawford (AR 01)	Middleton Industries, LLC	\$29,696	This Rural Development investment will be used to help a real estate company headquartered in Hollister, Missouri install a 74.2 kilowatt (kW) roof-mounted solar array on its warehouse building in rural Craighead County, Arkansas. Middleton Industries, LLC expects to save \$11,002 annually and replace 105,797 kilowatt hours (kWh) (100 percent of the company's energy usage) per year, which is enough to power nine homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Parkland RV Center, LLC	\$14,900	This Rural Development investment will be used to help Parkland RV Center, LLC, an RV dealership in Leadington, Missouri, install a 35-kilowatt solar array system. This project is expected to save \$4,509 per year. It will replace 45,097 kilowatt hours (kWh) (95 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Paul Stefan & Sons Farm, Inc.	\$66,568	This Rural Development investment will be used to help Paul Stefan & Sons Farms Inc., a row crop farming operation in Golden City, Missouri, install two solar array systems at its shop and grain bin locations. This project is expected to save \$25,168 per year. It will replace 193,594 kilowatt hours (kWh) (71 percent of the company's energy use) per year, which is enough energy to power 17 homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Pearce Properties, LLC	\$6,350	This Rural Development investment will be used to help Pearce Properties, LLC, a property management business in Kirksville, Missouri, install a 10.16-kilowatt solar array system. This project is expected to save \$1,452 per year. It will replace 13,894 kilowatt hours (kWh) (96 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	PERT, INC.	\$12,500	This Rural Development investment will be used to help PERT, INC, an automotive glass replacement shop located in Moberly, Missouri, install a 20-kilowatt solar array system. This project is expected to save \$3,096 per year. It will replace 34,913 kilowatt hours (kWh) (100 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	R and C Tire Shop, LLC	\$14,060	This Rural Development investment will be used to help R and C Tire Shop, LLC purchase and install an 11-kW and 18-kW solar array system. The tire shop is located in Neosho, Missouri. This project is expected to save \$4,788 per year. It will replace 38,904 kilowatt hours (kWh) (99.58 percent of the company's energy use) per year.

Rural Energy for America Program - Missouri Projects December 3, 2021

State	Sen.	Rep.	Recipient	Grants	Project Description
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	Reasoner Construction, LLC	\$7,625	This Rural Development investment will be used to help Reasoner Construction, a family run construction company in El Dorado Springs, Missouri, purchase and install a 10.78-kW solar array. The array will be connected to a battery backup energy storage system to ensure the business never loses power. This project will save the business \$2,087 per year. It will generate 13,915 kilowatt hours (kWh) per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Roger Southard	\$3,644	This Rural Development investment will be used to help Roger Southard, an agriculture producer in Fairfax, Missouri, install a 11.2-kilowatt solar array system. This project is expected to save \$1,134 per year. It will replace 9,745 kilowatt hours (kWh) (100 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	Schaepkoetter Store, Inc.	\$18,750	This Rural Development investment will be used to assist Schaepkoetter Store, Inc., a gas station and convenience store in Mount Sterling, Missouri, purchase and install a 29.04 kilowatt solar array. This project is expected to save \$4,753 per year. It will replace 38,835 kilowatt hours (kWh) (50.4 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	SMB Holdings, LLC	\$19,879	This Rural Development investment will be used to help SMB Holdings, LLC, a greenhouse and plant nursery in Carthage, Missouri, install a 100-kilowatt solar array. This project is expected to save \$9,017 per year. It will replace 123,973 kilowatt hours (kWh) (43 percent of the business's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Billy Long (07)	Sobrad, LLC dba Pinnacle Pet	\$49,999	This Rural Development investment will be used to help Sobrad LLC dba Pinnacle Pet, a pet supply store in Neosho, Missouri, install a 113.22-kilowatt solar array. This project is expected to save \$17,579 per year. It will replace 173,012 kilowatt hours (kWh) (100 percent of the store's energy use) per year. which is enough electricity to power 15 homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Southern Cape Realty, LLC	\$20,000	This Rural Development investment will be used to help Southern Cape Realty, LLC purchase and install a 99-kW solar array. The company is a small business located in Cape Girardeau, Missouri. This project is expected to save \$12,911 per year. It will replace 129,110 kilowatt hours (kWh) (20.2 percent of the company's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Jason T. Smith (08)	Tetley Company, LLC	\$49,975	This Rural Development investment will be used to help this poultry farm operation purchase and install two 75 kilowatt solar array systems. This project is expected to save \$21,516 per year. It will replace 228,401 kilowatt hours (kWh) (100 percent of the farm's energy use) per year, which is enough energy to power 21 homes.
MO	Roy Blunt, Josh Hawley	Blaine Luetkemeyer (03)	The Chest, LLC	\$20,000	This Rural Development investment will be used to help The Chest LLC, a family-owned manufacturing business in Washington, Missouri, install a 99-kilowatt solar array system. This project is expected to save \$12,934 per year. It will replace 128,184 kilowatt hours (kWh) (50 percent of the company's energy use) per year, which is enough electricity to power 11 homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Tracy Family Farms, Inc.	\$20,000	This Rural Development investment will be used to help Tracy Family Farms, Inc. purchase and install a grain dryer. The farm is a family operated farm located in Denver, Missouri. This project is expected to save the farm \$10,319 per year. It will replace 9,725 kilowatt hours (kWh) (82.8 percent of the farm's energy use) per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Tri-County Tire & Repair, LLC	\$9,405	This Rural Development investment will be used to help Tri-County Tire & Repair, LLC, an automobile repair and service shop in Monroe City, Missouri purchase and install a 19-kilowatt solar array system. This project is expected to save \$2,273 per year. It will replace 24,621 kilowatt hours (kWh) (90 percent of the company's energy use) per year.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Whitworth Farms, Inc.	\$28,767	This Rural Development investment will be used to help this row crop farming operation in Queen City, Missouri purchase and install a new grain dryer. This project is expected to save \$11,066 per year. It will replace 148,464 kilowatt hours (kWh) (55 percent of the company's energy use) per year, which is enough energy to power 13 homes.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Woodruff-Arnold, Inc.	\$20,000	This Rural Development investment will be used to help Woodruff-Arnold, Inc. purchase and install a 91-kW solar array. The company is a real estate property in Maryville, Missouri. This project is expected to save \$10,455 per year. It will replace 116,167 kilowatt hours (kWh) (97.86 percent of the company's energy use) per year, which is enough electricity to power ten homes.
MO	Roy Blunt, Josh Hawley	Vicky Hartzler (04)	Woogedy, LLC	\$20,000	This Rural Development investment will be used to help Woogedy, LLC, a small textile manufacturer in Moberly, Missouri, install a 37-kilowatt solar array system. This project is expected to save \$6,125 per year. It will replace 63,331 kilowatt (kWh) (93 percent of the company's energy use) per year, which is enough energy to power five homes.

TOTAL: \$1,333,498
