Recent Agricultural Cooperative Statistics Reports

USDA collects cooperative statistical data from the population of U.S. agricultural cooperatives annually. Aggregated statistical results are published in an annual comprehensive statistical report, and as well, includes a section on the Nation's Top 100 cooperatives as ranked by total business volume.

The survey year for collecting cooperatives fiscal 2019 is closed. The annual report will be released later this winter. If you would like **aggregated data for 2019**, we may be able to provide it before the report is released (the data will be preliminary).

For fiscal 2018 agricultural statistics data, a report was not printed. However, aggregated data are available in an **Excel workbook as follows: USDA Farmer Cooperative Statistics 2018** (all content normally contained in the annual report is available in the Excel workbook).

The **2017 Agricultural Cooperative Statistics report** is here:

Historical Agricultural Cooperative Data in Excel Format

USDA has available an Excel workbook file of aggregated historical data and aggregated data from more recent years. **USDA Farmer Cooperative Statistics 1913-2019** is the latest.

U.S. Agricultural Cooperative Directory in Excel Format

The "Directory of Rural Farmer, Rancher, and Fishery Cooperatives" (previously Service Report 22) is updated on a regular basis and is available in Excel workbook format (the hard copy reports found online are dated).
